IRRIGATION DEPARTMENT.

NOTIFICATIONS.

[Fourth publication.]

No. 2-I.—1st April 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B. C.) of 1876, the Governor in Council proposes to pass the following rules and to fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district :—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the grounds, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions :—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32"=1 mile when such are available, and elsewhere at scale 16"=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Executive Engineer, Bankura Division, in order that the detailed assessment may be taken in hand. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. The Executive Engineer on receipt of the application shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra* . Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra* , the Executive Engineer shall forward it to the Subdivisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Subdivisional Canal Officer, he shall return it to the Executive Engineer endorsed with his signature in token of approval.

The Executive Engineer shall then prepare a *khatian* or abstract of the *khasra* , and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Executive Engineer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Executive Engineer, Revenue Division, with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Executive Engineer shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised : but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Executive Engineer or other officer in charge of the Revenue Division, Bankura, through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Executive Engineer or other officer in charge of the Revenue Division after scrutiny in his office.

18. * At the time of preparation of the *khatian* in the Executive Engineer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of accounts of control over establishment, and of general administration, the Executive Engineer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act the Executive Engineer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge may be furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either divisional or subdivisional canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Executive Engineer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Executive Engineer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Executive Engineer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Executive Engineer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters :—

NOTIFICATIONS.

New Delhi, the 10th April 1930.

No. F-31-R.I/30.—The following Resolution by the Secretary of State in Council is published for general information:—

In exercise of the powers conferred by sub-section (2) of section 96B of the Government of India Act, the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India held this 18th day of March 1930, hereby makes the following amendments in the Fundamental Rules, namely:—

I. In rule 9 of the said rules—

(1) In sub-clause (a) of clause (23), after the word “pay” where it occurs for the first time, the words “in respect of a permanent post other than a tenure post” shall be inserted, and for the word “his” the word “such” shall be substituted.

(2) For clause (28) of the said rule, the following shall be substituted, namely:—

“Substantive pay means the pay other than special pay, personal pay or emoluments classed as pay by the Governor General in Council under rule 9 (21) (a) (iii), to which a Government servant is entitled on account of a post to which he has been appointed substantively or by reasons of his substantive position in a cadre.”

(3) After clause (30) of the said rule, the following shall be inserted, namely:—

“(30 a) Tenure post means a permanent post which an individual Government servant may not hold for more than a limited period.

NOTE.—In case of doubt a Local Government may decide whether a particular post is or is not a tenure post.”

(4) Clause (31) of the said rule shall be lettered “(a)”, and the following shall be added, namely:—

“(b) Time-scales are said to be identical if the minimum, the maximum, the period of increment and the rate of increment of the time-scales are identical.

“(c) A post is said to be on the same time-scales as another post on a time-scale if the two time-scales are identical and the posts fall within a cadre, or a class in a cadre, such cadre or class having been created in order to fill all posts involving duties of approximately the same character or degree of responsibility, in a service or establishment or group of establishments; so that the pay of the holder of any particular post is determined by his position in the cadre or class and not by the fact that he holds that post.”

II. In rule 21 of the said rules, for figure “32” figure “31” shall be substituted.

III. For rule 22 of the said rules, the following shall be substituted, namely:—

“The initial substantive pay of a Government servant who is appointed substantively to a post on a time-scale of pay is regulated follows:—

(a) If he holds a lien on a permanent post other than a tenure post, or would he have a lien on such a post had his lien not been suspended under rule 13—

(i) when appointment to the new post involves the assumption of duties and responsibilities of greater importance (as interpreted for the purposes of rule 30) than those attaching to such permanent post, he will draw as initial pay the stage of the time-scale next above his substantive pay in respect of the old post;

(ii) when appointment to the new post does not involve such assumption, he will draw as initial pay the stage of the time-scale which is equal to his substantive pay in respect of the old post, or if there is no such stage, the stage next below that pay, plus personal pay equal to the difference, and in either case will continue to draw that pay until such time as he would have received an increment is earned in the time-scale of the new post, whichever is less.

(b) If the conditions prescribed in clause (a) are not fulfilled, he will draw as initial pay the minimum of the time-scale.

Provided, both in cases covered by clause (a) and in those covered by clause (b), that if he either—

(1) has previously held substantively or officiated in—

(i) the same post, or

(ii) a permanent or temporary post on the same time-scale, or

(iii) a permanent post, other than a tenure post, on an identical time-scale, or a temporary post on an identical time-scale, such post being on the time-scale as a permanent post; or

(2) is appointed substantively to a tenure post on a time-scale identical with that of another tenure post which he has previously held substantively or in which he has previously officiated,

then the initial pay shall not be less than the pay, other than special pay, personal pay or emoluments classed as pay by the Governor-General in Council under rule 9 (21) (a) (iii), which he drew on the last such occasion, and he shall count for increments the period during which he drew that pay on such last and any previous occasions.

NOTE 1.—If the Government servant is entitled to overseas pay in the new post but was not drawing overseas pay in the old post, the overseas pay in the new post shall not be

taken into account in determining the stage in the time-scale of the new post to which he is entitled under clause (a).

NOTE 2.—For the purposes of this rule sterling overseas pay shall be converted into rupees at such rate of exchange as the Secretary of State in Council may by order prescribe."

IV. In rule 26 of the said rules—

(1) In clause (a), for the words "to which a time-scale applies" the words "on a time-scale" shall be substituted.

(2) At the end of clause (c) of the said rule, the following shall be added, namely:—

"This clause applies also to a Government servant who is not actually officiating in the lower post at the time of his appointment to the higher post, but who would have so officiated had he not been appointed to the higher post."

V. In rule 30 of the said rules—

(1) For the first paragraph of clause (I), the following shall be substituted, namely:—

"Subject to the provisions of Chapter VI, a Government servant who is appointed to officiate in a post shall not draw pay higher than his substantive pay in respect of a permanent post, other than a tenure post, unless the post in which he is appointed to officiate is one of those enumerated in the schedule to this rule or unless the officiating appointment involves the assumption of duties and responsibilities of greater importance than those attaching to the post, other than a tenure post, on which he holds a lien or would hold a lien had his lien not been suspended under rule 13."

And in the second proviso to the said clause for the words "the extra allowance, if any" the words "any special pay" shall be substituted.

(2) For clause (2) of the said rule, the following shall be substituted, namely:—

"For the purpose of this rule, the officiating appointment shall not be deemed to involve the assumption of duties or responsibilities of greater importance if the post to which it is made is on the same scale of pay as the permanent post, other than a tenure post, on which he holds a lien or would hold a lien had his lien not been suspended under rule 13, or on a scale of pay identical therewith."

VI. For rule 31 of the said rules, the following shall be substituted, namely:—

"Subject to the provisions of rules 26.(c), 30 and 35, a Government servant officiating in a post will draw the presumptive pay of that post, provided that, if the presumptive pay of the permanent post on which he holds a lien or would hold a lien had his lien not been suspended under rule 13, should

at any time be greater than the presumptive pay of the post in which he officiates, he will draw the presumptive pay of the permanent post."

VII. Rules 32 and 34 of the said rules shall be omitted.

Simla, the 19th April 1930.

No. F. 31-R.I/30.—The following should be added to the Resolution of the Secretary of State in Council published in the Government of India, Finance Department, Notification No. F. 31-R.I/30, dated the 10th April 1930:—

VIII. In Rule 100 of the said Rules in clause (c) for the words "permanent post for a fixed term" in both places where these words occur the words "tenure post" shall be substituted.

(2) For the purpose of this rule every accident to a train carrying passengers which is attended with loss of human life, or with serious injury to persons, or to property of the value of approximately Rs. 10,000 or upwards, and any other accidents which, in the opinion of the Government Inspector, requires the holding of an enquiry, shall be deemed to be an accident of a sufficiently serious nature to require the holding of an enquiry.

(3) When an accident, requiring the holding of an enquiry, occurs at a station where the charges of two or more Government Inspectors meet, the duty of complying with this rule shall devolve on the Government Inspector within whose jurisdiction lies the railway working the station which is the scene of the accident.

The Government Inspector shall advise the Railway Board of the reason why an enquiry has not been held by himself. If the Government Inspector, after examination of the joint enquiry proceedings, considers that an enquiry should be held by himself,

he shall, as soon as possible, notify the Railway Board and the Agent or Manager of the Railway concerned, of his intention to hold an enquiry and shall at the same time fix and communicate the date, time and place for the enquiry.

8. Whenever the Government Inspector has made an enquiry under rule 7, or when he disagrees with, or considers it necessary adversely to criticise the report of the joint or departmental enquiry or the working of the railway, he shall submit a report in writing, to the Local Government or Administration controlling the railway and to the Railway Board or, in the case of a railway which is directly administered by the State, to the Railway Board only; and shall forward a copy of such report to the Agent or Manager of the railway concerned, and, if a magisterial enquiry is being made, to the Magistrate who is making such enquiry.

9. When the Government Inspector recommends the publication of such a report, it shall be in the form adopted by the Inspecting Officers of the Board of Trade; when not recommended for publication, it may be in the form of a letter explaining, as briefly as possible, the special features which the Government Inspector desires to bring to notice.

10. If the Agent or Manager makes any remarks on the Government Inspector's report under rules 16 and 17 or expresses an intention to do so, the Government Inspector shall inform the Railway Board and the Local Government or Administration controlling the Railway, of the steps which have been or are proposed to be taken by the railway administration to prevent a recurrence of similar accidents, and whether, in his opinion, further action in the matter is desirable.

11. The Government Inspector shall, as far as possible, assist any Magistrate making an enquiry under rule 22 or a judicial enquiry, whenever he may be called upon to do so.

12. Nothing in these rules shall be deemed to limit or otherwise affect the exercise of any of the powers conferred on Government Inspectors by section 5 of the Act.

Duties of the Agent or Manager, and of the Head of the Department concerned.

13. Whenever any accident has occurred in the course of working a railway, the Agent or Manager shall give all reasonable aid to the District Magistrate or the Magistrate appointed or deputed under rule 22, and to the Government Inspector, Medical Officers, the police, and others concerned to enable them promptly to reach the scene of the accident, and shall assist those authorities in making enquiries and in obtaining evidence as to the cause of the accident.

14. Whenever any accident, occurring in the course of working a railway, has been attended with grievous hurt, as defined in the Indian Penal Code, it shall be the duty of the Agent or Manager to afford medical aid to the sufferers, and to see that they are properly and carefully attended to till removed to their home or handed over to the care of their relatives or friends. In any such case, or in any case in which any loss of human life or grievous hurt, as defined in the Indian Penal Code, has occurred, the nearest local medical officer should be communicated with, if he is nearer than any railway medical officer.

15. When any enquiry, under rule 7 or rule 22, or any judicial enquiry is being made, the Agent or Manager shall arrange for the attendance, as long as may be necessary, at the office or place of enquiry, of all railway servants whose evidence is likely to be required. If the enquiry is to be held by the Government Inspector under rule 7, the Agent or Manager shall cause notice of the date, hour and place at which the enquiry will begin to be given to the officers mentioned in clauses (a) and (c) of rule 19. He shall also arrange for the attendance of the District officers at the enquiry.

16. Whenever the Agent or Manager receives a copy of the Government Inspector's report under rule 8 he shall at once acknowledge its receipt. If he differs from the views expressed in the report, he shall at the same time submit his remarks thereon, or, if he is not immediately able to do so, he shall, in his acknowledgment of the report, inform the Government Inspector of his intention to submit his remarks later. If the Agent or Manager desires to prosecute any person or persons, he shall immediately forward a copy of the report, together with a statement of the persons he wishes to prosecute, to the District Magistrate of the district in which the accident occurred, or to such other officer as the Local Government may appoint in this behalf.

17. Whenever the report of the Government Inspector points to the necessity for or suggests a change in any of the rules or in the system of working, the Agent or Manager shall, when acknowledging the report, intimate the action which has been taken, or which it is proposed to take, to prevent a recurrence of similar accidents, or shall inform the Government Inspector of his intention to report further on the Government Inspector's proposals.

18. (1) Whenever an accident, such as is described in section 83 of the Act, has occurred in the course of working a railway, the Agent or Manager shall cause an enquiry to be promptly made by a committee of railway officers (to be called a "joint enquiry") for the thorough investigation of the causes which led to the accident:

Provided that such enquiry may be dispensed with—

- (a) if an enquiry is to be held by the Government Inspector under rule 7;
- (b) if the accident has not been attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or
- (c) if there is no reasonable doubt as to the cause of the accident; or
- (d) if one department of the railway intimates that it accepts all responsibility in the matter.

(2) Where such enquiry is dispensed with, it shall be the duty of the head of the department of the railway responsible for the accident to make such enquiry (to be called a "departmental enquiry") as he may consider necessary and if his staff or the system of working is at fault, to adopt or suggest such measures as he may consider expedient for preventing a recurrence of similar accidents.

19. (1) Whenever a joint enquiry is to be made, the Agent or Manager shall cause notice of the date and hour, at which the enquiry will commence, to be given to the following officers, namely:—

- (a) the District Magistrate of the district in which the accident occurred, or such other officer as the Local Government may appoint in this behalf, the Superintendent of Railway Police and the District Superintendent of Police;
- (b) the Government Inspector for the section of the railway on which the accident occurred; and
- (c) the officer-in-charge of the railway police, or if there are no railway police, the officer-in-charge of the police-station in the jurisdiction of which the accident occurred.

(2) The date and hour at which the enquiry will commence shall be fixed, so as to give the officers mentioned in sub-rule (1) sufficient time to reach the place where the enquiry is to be held.

20. (1) As soon as any joint or departmental enquiry has been completed, the President of the Committee or the head of the department, as the case may be, shall send to the Agent or Manager a report which in the case of all accidents of the nature described in the explanation to rule 6 must be submitted in the form prescribed by sub-rule (1) of rule 9.

(2) The Agent or Manager shall forward with his remarks as to the action it is intended to take in regard to the staff responsible for the accident, or for the revision of the rule or the system of working, a copy of such report:—

- (a) to the Government Inspector for the section of the railway on which the accident occurred;
- (b) if no enquiry or investigation has been made under rule 22 or if a joint or departmental enquiry has been held first, to the Magistrate or officer appointed under clause (a) of sub-rule (1) of rule 19; and
- (c) if any judicial enquiry is being made to the Magistrate making such enquiry

(3) Such copy shall be accompanied in the case referred to in clause (b) of sub-rule (2) by a statement of the persons, if any, whom the Agent or Manager desires to prosecute and in the case referred to in clause (c) of the same sub-rule, by a copy of the evidence taken at the enquiry.

21. A copy of reports of inquiries held or accidents not of the nature specified in section 83 of the Act, such as averted collisions, technical accidents, or breaches of block rules, shall be forwarded to the Government Inspector for the section of the railway on which the accident occurred.

Duties of Magistrates.

22. Whenever an accident, such as is described in section 83 of the Act, has occurred in the course of working a railway, the District Magistrate, or any other Magistrate, who may be appointed in this behalf by the Local Government, may, either—

- (a) himself make an enquiry into the causes which led to the accident; or
- (b) depute a subordinate Magistrate, who, if possible, should be a Magistrate of the first class, to make such an enquiry; or
- (c) direct an investigation into the causes which led to the accident to be made by the police.

23. Whenever it is decided to make an enquiry under clause (a) or clause (b) of rule 22, the District Magistrate or other Magistrate appointed as aforesaid or the Magistrate deputed under clause (b) of rule 22, as the case may be, shall proceed to the scene of the accident and conduct the enquiry there, and shall at once advise the Agent or Manager of the railway and the Government Inspector by telegraph of the date and hour at which the enquiry will commence, so as to enable the railway administration to summon the requisite expert evidence.

24. A Magistrate, making an enquiry under rule 22, may summon any railway servant, and any other person whose presence he may think necessary, and, after taking the evidence and completing the enquiry, shall, if he considers there are sufficient grounds for a judicial enquiry, take the requisite steps for bringing to trial any person whom he may consider to be criminally liable for the accident. Whenever technical points are involved, the Magistrate should call for the opinion of the Government Inspector or other professional persons.

25. The result of every enquiry or investigation made under rule 22 shall be communicated by the Magistrate to the Agent or Manager of the railway and to the Government Inspector.

26. If, in the course of any judicial enquiry, into an accident occurring in the course of working a railway, the Magistrate desires the assistance of the Government Inspector or of the Agent or Manager of the railway, or the attendance of any officer of the railway, to explain any matter relating to railway supervision, management or working, he will issue a requisition to the Agent or Manager for the attendance at court of an officer competent to explain such matter, stating at the same time the nature of the assistance required. In summoning railway servants, the Magistrate will take care not to summon so large a number of the employees, especially of one class, on the same day, as to cause inconvenience to the working of the railway. In the case of very serious accidents it will generally be advisable for the Magistrate to obtain a report, from both the Government Inspector and the Agent or Manager of the railway, in regard to the accident, before finally concluding the judicial enquiry.

27. On the conclusion of any such judicial enquiry the Magistrate shall send a copy of his decision to the Agent or Manager of the railway, and to the Government Inspector, and shall, unless in any case he thinks it unnecessary to do so, report the result of the enquiry to the Local Government.

Duties of Police Officers.

28. (1) The railway police may make an investigation into the causes which led to any accident occurring in the course of working a railway and shall do so—

- (a) whenever any such accident is attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or has *prima facie* been due to any criminal act or omission; or
- (b) whenever the District Magistrate or the Magistrate appointed under rule 22 has given a direction under clause (c) of that rule;

Provided that no such investigation shall be made when an enquiry has been commenced or ordered under clause (a) or clause (b) of rule 22.

(2) The railway police shall report, with as little delay as possible, to the nearest Station-master or, where there is no Station-master, to the railway servant in charge of the section of the railway on which the accident has occurred, every accident which may come to their notice occurring in the course of working a railway attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or which has *prima facie* been due to any criminal act or omission.

29. (1) Whenever an investigation is to be made by the railway police—

- (a) in a case in which an accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or
- (b) in pursuance of direction given under clause (c) of rule 22,

the investigation shall be conducted by the officer-in-charge of the railway police, or, if that officer should be unable to conduct the investigation himself, then by an officer to be deputed by him.

(2) The officer deputed under sub-rule (1) shall ordinarily be the senior officer available, and shall whenever possible be a Gazetted officer, and shall in no case be of rank lower than that of Inspector:

Provided that the investigation may be carried out by an officer-in-charge of a police station—

- (i) in such a case as is referred to in clause (a) of sub-rule (1) unless loss of life or grievous hurt has been caused to more persons than one or injury to property has been caused to a value exceeding Rs. 10,000, or there is reason to suspect that any servant of the railway has been guilty of neglect of rules; or
- (ii) in the case referred to in clause (b) of sub-rule (1) if the District Magistrate so directs.

30. The officer who is to conduct an investigation in pursuance of rule 29 shall proceed without delay to the scene of the accident and conduct the investigation there and shall at once advise the Agent or Manager of the railway and the Traffic Officer of the district by telegraph of the date and hour at which the investigation will commence so that, if possible, the presence of a railway official may be arranged for to watch the proceedings and to aid the officer making the investigation. The absence of a railway official must not, however, be allowed to delay the investigation, which should be made as soon as possible after the accident has taken place.

31. (1) In every case to which rule 29 applies, immediate information shall be given by the railway police to the district police, who, if so required, shall afford all necessary assistance and shall, if occasion arise, carry the investigation beyond the limits of the railway premises. But the railway police are primarily entrusted with the duty of carrying on the investigation within such limits.

(2) Subject to any provisions elsewhere contained in these rules, the further prosecution of the case, on the conclusion of the police investigation shall rest with the railway police.

32. The result of every police investigation shall be reported at once to the District Magistrate or other officer appointed in this behalf by the Local Government to the Agent or Manager of the railway or other officer appointed by him, and to the Government Inspector.

33. Where there are no railway police, the duties imposed by rules 28, 29 and 30, sub-rule (2) of rule 31, and rule 32 on the railway police, or on the officer-in-charge of the railway police, shall be discharged by the district police or by the District Superintendent of Police, as the case may be.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1922.

Two Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, history, archæology, anthropology, etc. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1922, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied, to the Director of Public Instruction, Bengal, and must produce evidence of having passed the M.A. or M.Sc. examination from a college or other institution in Bengal or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering in 1919 or 1920 or 1921. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted on or before the 31st May 1922 in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

Director of Public Instruction, Bengal (offg.).

CALCUTTA, the 20th April 1922.

THE GOVERNMENT COMMERCIAL INSTITUTE.

The Evening Lectures.

COURSES of evening lectures are delivered in the following subjects. A student can take up one subject or several subjects, provided the class hours permit him to attend the lectures in each subject:—

- (a) Book-keeping (Elementary).
- (b) Book-keeping (Advanced).
- (c) Shorthand (Theory).
- (d) Shorthand (Speed).
- (e) Typewriting.
- (f) English (including commercial correspondence, letter-drafting and précis-writing).
- (g) Outlines of Political Economy.
- (h) Banking and Currency.
- (i) Annuities and Insurance.
- (j) Mercantile Law.
- (k) Accountancy and Auditing.

The courses of lectures commence in July and continue until the following April, except the course of Accountancy and Auditing, which extend over two years.

(a) **Book-keeping (Elementary).**—Students having a satisfactory knowledge of English and Arithmetic are admitted. Text-book—Arthur Fieldhouse's Complete Book-keeping, up to 100 exercises including Partnership accounts. The fee for the full session, July to April, is Rs. 24, payable in eight monthly instalments of Rs. 3 each. Classes are held three times a week from 6 to 7 P.M.

(b) **Book-keeping (Advanced).**—Students who have passed the Elementary Book-keeping Examination, or who can give satisfactory proof of their knowledge of Elementary Book-keeping up to the requisite standard, are admitted. Text-book—Complete Book-keeping, by Arthur Fieldhouse. The fee for the full session, July to April, is Rs. 32, payable in eight monthly instalments of Rs. 4 each. Classes are held twice a week from 6 to 7 P.M.

(c) **Shorthand (Theory).**—Pitman's Shorthand is the system taught. Students having a sufficient knowledge of English are admitted at the beginning of the session in July. Students are also admitted in December, provided they have already a sufficient knowledge of Shorthand to enable them to appreciate the lectures in the session, December to April.

The minimum speed required to pass the examination is 80 words per minute. The class is held daily from 5 P.M.

The fee for the session, July to November, is Rs. 12, which may be paid in four monthly instalments of Rs. 3 each. The fee for the session, December to April, is Rs. 16, which may be paid in four monthly instalments of Rs. 4 each.

(d) **Shorthand (Speed).**—Students having a speed of 60 words per minute are admitted in July, and the class practice is from 60 to 120 words per minute.

Students having a minimum speed of 80 words per minute are admitted in December, and the class practice is from 80 to 140 words per minute.

In the examination the tests are at four grades of speed, 80, 100, 120, 140 words per minute, and at higher speeds if candidates can write more rapidly. Classes are held daily from 6 P.M. Fees are the same as for (c).

(e) **Typewriting.**—Beginners are admitted in July. Students having a minimum speed of 20 words per minute are admitted in December. The minimum speed required to pass the examination at the end of April is 35 words per minute. Certificates are issued for 35, 40, 45, 50, 55, 60 words per minute. For each of the speed tests there is a corresponding accuracy test in tabulating. Classes are held at 5, 6 and 7 P.M. Fees are the same as for (c).

Combination of the above subjects and reduction of fee.—If a student simultaneously takes up two or three of the subjects (a) to (e), a reduction of Re. 1 per instalment of each of the fees payable by him will be granted: for example, if a student is a member of both the Shorthand and the Elementary Book-keeping classes, he will have to pay instalments of Rs. 2 for each subject instead of Rs. 3 for the session, July to December.

(f), (g), (h), (i) and (j).—Classes are formed in these subjects if a sufficient number of candidates apply for admission. The fee for each subject is Rs. 3 for each series of ten lectures.

(k) **Accountancy and Auditing.**—There are two courses of year each for ordinary students, or one year for those who are already practising as Auditors, to prepare candidates for the Government examination of Diploma in Accountancy, which qualifies them to obtain the Government license to practise as Auditors. Students of this class have to attend Book-keeping and Mercantile Law classes, for which no extra fee has to be paid. The fee is Rs. 144, payable in advance in four half-yearly instalments of Rs. 36 each in the case of ordinary students and Rs. 72 in two half-yearly instalments of Rs. 36 each in the case of those who are practising as Auditors and hold a provisional license granted by Government.

2. **Examinations.**—The examination in subjects (a) to (j) is held at the end of April, at the end of the year's course, under the control of the Government Commercial Institute Board, and successful candidates receive certificates signed by the Director of Public Instruction, Bengal, and countersigned by the Secretary to the Bengal Chamber of Commerce. The examination fee for each subject is Rs. 5.

3. **Attendance.**—Strict regularity and punctuality of attendance are observed. Students must attend 75 per cent. of the lectures in order to appear at the examination. Classes are not held in the evening on Saturday.

4. **Standard of Admission.**—Candidates who have attended the lectures of the day course are eligible for admission. Others will be admitted, provided they appear qualified for the class or classes they seek to join.

5. **Prizes.**—Prizes of Rs. 50 each are offered by the Bengal Chamber of Commerce to the best candidates from the evening classes in subjects (b), (d), (f), (g), (h), (i) and (j). Three medals are offered by the Remington Typewriter Co. to the best three students of either the day or evening classes in the Typewriting examination.

6. **Admission.**—Candidates for admission should send in their applications and register their names, with a deposit of fees, before the end of June. Candidates who desire to be admitted in December should apply before the end of November.

TRIENNIAL RESOLUTION ON THE OPERATIONS OF THE CALCUTTA IMPROVEMENT TRUST.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 11th APRIL 1922.

RESOLUTION—No. 1823M.

READ—

The reports on the operations of the Calcutta Improvement Trust for the years 1918-19, 1919-20 and 1920-21.

1. **General.**—The Improvement Trust was created in 1912 for the improvement and expansion of Calcutta by opening up congested areas, laying

out or altering streets, providing open spaces and for the rehousing of the poorer persons displaced by the execution of improvement schemes. The last triennial resolution referred to the manner in which the work of the Trust has been checked and delayed by the war. Nor did the end of the war bring immediate relief, since engineering materials were still scarce. Moreover, the rise in the rate of interest at which money can be borrowed and the enhanced cost of works, has made the question of finance a pressing one. The development of suburban areas—Cossipore-Chitpore and Maniktola—is no longer possible; it has been decided that the Board should concern itself in the first instance with the construction of main roads in the centre of Calcutta which no other local authority could undertake. Proceeding on this principle the Trust has made substantial progress in the provision of city thoroughfares; the great central avenue scheme is being pushed on the widening of Russa Road is slowly approaching completion and Park Street is already vastly improved, while the important scheme for its extension is making steady progress.

The high cost of building has retarded re-building operations on land sold or exempted by the Trust, and the housing problem in 1920 became most acute. At the same time, a land boom set in; money was cheap and land became a favourite form of investment; the price of land rose to surprising heights. It must be some time before building overtakes the shortage for which the war was responsible.

2. **Improvement Schemes.**—During the years under review Government sanctioned six improvement schemes; of these two formed the southern section of the great north and south thoroughfares (Central Avenue), one provided for an extensive park which in combination with the fringe area scheme of the Calcutta Corporation will provide splendid recreation grounds for the youth of northern Calcutta, and another scheme provided for the construction of the new main sewer road from Chetla to Ballygunge railway station, which is designed to improve the general drainage of an unhealthy and sparsely populated area.

The first section of the scheme for the improvement of Bara Bazar was published for criticism, but it was held in abeyance pending the alignment of a road system for the whole area. At the time of writing three important series of alignments have been sanctioned and improvement schemes will be taken up in small sections for the 100 acres of almost solid building known as Bara Bazar. The financial question has in this connection assumed special importance; the revenues of the Trust are already mainly earmarked for the long series of improvement and alignment schemes, which have been sanctioned, and if the improvement of Bara Bazar—for which the Trust was primarily constituted—proves costly, its execution could only be financed by the curtailment of the sanctioned programme.

There is, however, reason to believe that many Bara Bazar schemes may yield a profit instead of proving a heavy charge on the revenues of the Trust and after a careful study of the financial position, Government have agreed that the Trust might proceed with its first improvement scheme which will shortly be published; the execution of this scheme will afford data which will enable the Trust to decide whether the transformation of Bara Bazar can be achieved without the curtailment of other part of the general programme or whether a complete revision of the approved schemes will be necessary.

3. **Squares and Parks.**—In pursuance of the policy of providing open spaces in the north of the town and in the suburbs, the Trust embarked on the selection of sites for parks and squares in Maniktola, Cossipore-Chitpore, Ratan Sarkar Garden Street (Pathuriaghatta), Ramkissen Das Lane (Badurbagan) and Amherst Street.

4. **Howrah.**—The question of extending the operations of the Trust to Howrah has been the subject of prolonged discussion. Having regard to the urgent necessity of improving Howrah and preventing the growth and perpetuation on the west bank of the Hooghly of conditions which can hereafter be remedied only at enormous expense, the Board of Trustees declared

themselves willing to undertake the improvement on suitable financial conditions. As this could not be given effect to without amending the Act, it was decided that a Bill should be prepared; it is hoped that definite proposals for the improvement of Howrah and a draft Bill will shortly be ready.

5. Rehousing Scheme.—For the accommodation of persons displaced by the execution of their schemes, the Trust embarked on the preparation of rehousing schemes and, following the natural tendency of the people of the working class who prefer to live in the sort of hut to which they are accustomed, selected sites were acquired in Beckbagan and Maniktola for the erection of sanitary huts on well-raised plinths. Another site was acquired in Karbala Tank Lane in order to build houses to be let temporarily to persons displaced by improvement schemes. Sanction was also accorded to a scheme for the erection of tenement dwellings and the creation of an open space for the Anglo-Indian population rendered homeless by the section of the Central Avenue to the south of Bow Bazar Street. Land is being acquired in Cossipore-Chitpore for the purpose of providing suitable building sites on which persons of the poorer classes, whose houses have been acquired by the Trust and whose slender means prevent them from purchasing sites in Calcutta, may build new houses under the control of the Trust. The Calcutta Corporation transferred to the Trust the development scheme south of Shambazar Park for reinstating those displaced by improvement schemes in the north of the town. But neither these operations nor the restriction of house rents imposed by the Calcutta Rent Act are sufficient to solve the housing problem in Calcutta. At present, one of the chief obstacles to the expansion and development of Calcutta is the difficulty which building societies and companies experience in obtaining land and securing a firm title. It was on this account that the Calcutta Rents Committee appointed in September 1919 recommended that Government should utilise the provisions of the Land Acquisition Act to acquire land for bodies which had been formed definitely for the provision of housing accommodation. In pursuance of this recommendation a resolution was issued by Government in the year 1920 announcing that they would acquire land under the Land Acquisition Act for approved schemes on behalf and at the cost of registered companies for housing purposes so long as emergent measures are necessary for the development of Calcutta. This resolution had however, subsequently to be withdrawn on account of legal difficulties.

6. Projected public streets.—In order that intending builders—might know clearly how their plans were likely to be affected by the operations of the Trust, as well as to prevent future improvement schemes being blocked by the creation of new buildings, 17 projected public streets were sanctioned, within the alignment of which new buildings cannot be constructed.

7. Finance.—(i) The receipts from the duty on transfer of property, jute tax and the municipal contribution steadily increased. But on the other hand, the pay of the establishment has been revised in view of the increased cost of living; the cost of materials has increased, and in view of the recent land boom, land values are no longer stable. Owing to the scarcity of house accommodation and the hardship caused by evicting householders, the Trust has decided not to carry on demolition of buildings within the area of acquisition until something is done to remedy the house shortage. This delays recoupment by the sale of surplus land. The result is that much capital is locked up in land. The Board decided to raise a loan to carry out its programme of work and was permitted by Government to borrow Rs. 50 lakhs from the Bank of Bengal on collateral security.

(ii) The total income and expenditure under the capital account during the three years ending the 31st March 1921 were, respectively, Rs. 155½ lakhs and Rs. 258 lakhs and those under the revenue account Rs. 118 lakhs and Rs. 25 lakhs. The deficit in the capital account was met from the revenue account which closed with a net balance of Rs. 53 lakhs (as against Rs. 62½ lakhs at the end of 31st March 1918).

8. The Government of Bengal (Ministry of Local Self-Government) desire to thank Mr. Bompas and the other Trustees for the steady progress which has been made in the improvement of Calcutta in spite of the numerous difficulties which have arisen. Mr. Bompas has been Chairman of the Trust from its very inception and his wide experience and sound judgment proved exceptionally valuable in trying times.

By order of the Government of Bengal
(Ministry of Local Self-Government).

S. W. GOODE,
Secretary to the Government of Bengal (offg.).

In addition to the details required on the reverse, clear information should be given below under the following heads:—

- | | |
|--|---|
| <p>(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the Municipality has taken, or has agreed to take, in order to make good the deficiency.</p> | <p>The general revision of assessment has just been taken up. In order to improve the financial condition of the Municipality and to make special provision for the instalments of the annual repayment of the proposed loan and to reserve the same for the purpose, it has been resolved to enhance the rate of taxation of the personal tax, from Re. 1 to Re. 1-2 per cent. And it is most probable that more than Rs. 3,000 will be increased at the said assessment, which will come into force from the beginning of the next financial year.</p> |
| <p>(b) The reserve of taxation or other possible means of increase in the revenues of the Municipality.</p> | <p>Ditto ditto.</p> |
| <p>) A statement of all outstanding loans, specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.</p> | <p>There is no other loan of the Municipality.</p> |
| <p>(d) Any explanations in regard to receipts and expenditure to show the true financial position of the Municipality when such position is otherwise than the ordinary surplus would indicate.</p> | <p>The ordinary expenditure shown in column 19 of this application, for the year 1920-21, shows an excess over the ordinary income in column 11 of that year. It was due to special circumstances, as explained in the remarks column No. 21 of this application, in the reverse. The normal surplus would have been far higher, had not the Municipality been under the necessity of incurring an expenditure of Rs. 2,265 for the two important and essential projects of (1) extending the trenching grounds and (2) establishment of a Muhammadan burial ground. It is therefore reasonable to exclude this amount of Rs. 2,265 in finding out the normal surplus in column 20 of this application.</p> |

No. 11181—M.O.-1.

Simla, the 23rd October 1921.

FROM

HIS EXCELLENCY GENERAL LORD RAWLINSON OF
TRENT, G.C.B., G.C.V.O., K.C.M.G., A.-D.-C.,

Commander-in-Chief in India,

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA,
ARMY DEPARTMENT.

SIR,

I HAVE the honour to submit herewith, for the information of the Government of India, a report on the operations of the Waziristan Force for the period 8th May 1920 to 31st March 1921.

REORGANISATION.

2. The despatch by His Excellency General Sir Charles Monro, dated 1st August 1920, dealt with the Mahsud operations up to the dispersal of the Derajat Column on the 7th May 1920.

After the dispersal of the Derajat Column on the 7th May 1920, the system of command and organisation of the Ladha line were altered. By degrees the duties performed by the Inspector-General of Communications and the Line of Communication organisation under him became merged in Force Headquarters and by the 1st May the Inspector-General of Communications and his staff were dispersed, the staff at Force Headquarters being increased to cope with the extra work entailed.

The 62nd Brigade held the section up to Khirgi inclusive, the 68th Brigade from Khirgi exclusive to the Ahnai Tangi, and the 43rd Brigade from the Ahnai Tangi to Ladha which was occupied by the 67th Brigade. The latter Brigade had no responsibilities except for its own protection, so that it was available at all times for offensive action. The distribution of troops after the reorganisation was completed was as given in Appendix 1.

SUMMARY OF EVENTS.

3. During the remainder of May the situation in all parts of the area was quiet, and by degrees the inhabitants of the occupied line began to return to their villages. The blockade was relaxed in favour of those sections of the Mahsuds that had submitted, though it was still enforced against the recalcitrant sections.

This partial raising of the blockade tended towards reconciling the inhabitants to our presence in the heart of the country.

4. On the 25th May Major-General S. H. Climo, C.B., D.S.O., proceeded on leave, and the command of Wazir Force devolved on Brigadier-General W. S. Leslie, C.M.G., D.S.O.

5. During the month of June the Abdullais, under their leaders Musha Khan and Fazl Din, continued to be actively hostile against our occupation.

This activity consisted chiefly of sniping and raiding between Piaza and Ladha but met with little success.

The remainder of the area was quiet except for a raid against Isa Khel on the 1st June by a gang of twenty raiders. This gang was surprised near Gambila, on the 2nd June, by troops from Bannu working in co-operation with the police, and dispersed. The area between Dera Ismail Khan, Bannu and Kalabagh now being quiet, all military detachments were withdrawn from Pezu and other posts on the railway. The inhabitants continued to return in considerable numbers and produced local supplies for the troops.

6. During the first few days of July the sniping between Piaza and Ladha increased, and as it was known that the Abdullais of Makin were the principal offenders, a minor operation against Makin was sanctioned and was carried out on the 10th July.

A column under Brigadier-General G. Gwyn-Thomas, C.M.G., D.S.O., composed of—

No. 6 Pack Battery (British),
2nd Battalion, Norfolk Regiment,
2-41st Dogras,
3-11th Gurkha Rifles, and
1 Company, 34th Pioneers

moved out from Ladha against Makin at 04-30 hours on the 10th July. It met with only slight opposition and by 08-30 hours was in a position to carry out the shelling of the Makin villages. The shelling continued for an hour and a half and considerable damage was done.

The withdrawal to camp began at 10-15 hours and was followed up by the enemy. The two advanced battalions—the 2nd Battalion, Norfolk Regiment, and 3-11th Gurkha Rifles—carried out their retirement very successfully and only suffered 15 casualties. The numbers of the enemy had, however, by this time considerably increased, and after the two advanced battalions had withdrawn, the Mahsuds showed greater boldness and came to closer range. The 2-41st Dogras, who had taken over the duty of covering the withdrawal, now suffered some casualties which caused delay, and the retirement to camp was only completed at 14-00 hours. Fighting during this period was severe

and in some cases hand to hand struggles took place, the 2-41st Dogras losing in all 18 killed and 41 wounded.

The operation achieved the results aimed at, and there was a marked decrease in sniping and in raids in the neighbourhood of Piazza for a considerable time.

7. During August (which was a comparatively uneventful month), some of the sub-sections of the Mahsuds banded in their share of rifles and fine: the attitude of the friendly tribes improved still further, and the local purchase of supplies increased: and it appeared possible, for the first time, that the Mahsuds would provide labour during the winter for the work on the Ladha road.

8. During September the Wana Wazirs became more active.

On the 11th September a party of the Frontier Constabulary were ambushed near Zam Burg losing five men killed and two captured. One of the parties of Frontier Constabulary sent out to deal with the raiding gang met with a reverse, and lost five men killed and thirteen missing. A squadron of the 16th Cavalry was then sent out from Dera Ismail Khan, but failed to get in touch with the raiders. On the 27th September another Wazir lashkar, estimated at several hundred men, surrounded Drazinda and summoned the garrison to surrender. The Frontier Constabulary at Draband and other posts in the neighbourhood were unable to cope with this lashkar and the 16th Cavalry, less one squadron, were ordered out from Dera Ismail Khan and Tank. Marching all night the cavalry arrived at Draband on the morning of 28th September, and at Drazinda on the 29th.

In the meantime, in order to show the beleaguered garrison that help was at hand, two aeroplanes were ordered from Parachinar to Tank early on the morning of the 28th September. One aeroplane crashed on the Tank aerodrome, but the other arrived over Drazinda at 10-30 hours on the 28th and bombed a party of the enemy, inflicted six casualties. The Wazirs withdrew from the vicinity and the arrival of the cavalry next morning ensured the safety of the post.

9. On 20th October Major-General T. G. Matheson, C.B., C.M.G., took over command of Waziristan Force from Major-General W. L. Leslie, C.M.G., D.S.O.

10. On the night of 21st-22nd October a mixed gang of about one hundred and twenty Wazirs and Mahsuds broke into Kaur Bridge Camp, which was garrisoned by one company of the 2-90th Punjabis.

The casualties in the garrison were as follows:—

Killed.			Wounded.

Owing to the raiders gaining possession of the telephone station no news of the attack reached Tank or Manzai until after the enemy had withdrawn.

On the 24th October the postal convoy was attacked between Jandola and Kotkai and the mails seized.

On the 27th October the camp of Piazza Raghza was closed down and its garrison was distributed between Sorarogha and Ladha, thus making the stages to Ladha from Jandola three instead of four.

THE OPERATIONS AGAINST THE WANA WAZIRS.

11. It had been intended to operate against the Wana Wazirs during the spiring of 1920 to punish the tribe for the many outrages it had been guilty of during 1919.

During the latter year, the Afghans, in order to enlist the assistance of the tribesmen and to embolden them to harry British India, during the Afghan

War, had sent a small detachment to Wana. This contingent consisted of two mountain guns and some Afghan soldiers under Shah Daula, who also raised levies of Wazirs and Mahsuds. These levies were supplied with arms and rations by the Afghans. Later, the Afghan contingent was strengthened by the arrival of Haji Abdur Razag, a well-known anti-British agent of considerable reputation, his son Muhammad Hassan, a B. A. of Lahore University, and a small deputation of Hindustani fanatics from the Black Mountain District.

Throughout the summer the contingent remained in Wazir territory and continued to receive assistance from Afghanistan in money, ammunition and rations. The presence of these Afghan adventurers precluded any real attempt on the part of the Wana Wazirs to approach Government with a view to submission.

The determined resistance of the Mahsuds rendered an expedition against the Wana Wazirs in the spring of 1920 impossible and it was postponed, but towards the end of the summer the Government of India decided that operations against the Wana Wazirs should take place in the autumn unless our terms were complied with, and ordered the concentration of the Wana Column at Jandola. Troops belonging to the Wazir Force were to be assembled by the end of October, and those from other districts in India by the 15th November.

The column consisted of two Infantry Brigades with attached troops under the command of Major-General W. S. Leslie, C.M.G., D.S.O. The detailed composition of the column is shown in Appendix 2.

The Mahsud situation, generally, improved so much that there was little doubt that these tribesmen would not only refuse to assist the Wana Wazirs, but would put no obstacle in our way during the advance to Sarwekai, which was to be the first stage in the advance to Wana. The concentration of the troops from other districts in India was therefore postponed so as to keep the number of troops to be maintained as low as possible, and thereby expedite the collection at Jandola of the necessary supplies and stores.

12. The Wana Wazir maliks were summoned to present themselves at Murtaza on October 10th to receive the terms of the Government of India. The full terms for the Wana Wazirs were a fine of Rs. 40,000, 250 tribal rifles and all Government rifles taken by them since 1st May 1920. These terms were issued to the jirga by the Resident in Waziristan and included a clause to the effect that Rs. 20,000 of the fine, 300 Government rifles and 200 tribal rifles were to be surrendered by a fully representative jirga at Murtaza by the 10th November, failing which our troops would advance on Wana and carry out punitive operations and enforce the full terms.

This clause was not complied with, and the Wazir jirga failed to attend at Murtaza on the 10th November. In consequence, on the 11th November, the bombing of certain selected objectives by aeroplane was commenced. At that time the Wana Wazirs were divided in their intentions, a considerable party wishing for peace and endeavouring to comply with the terms of Government, while a larger party was against compliance. The ruling spirit of this party was the Haji, and it became apparent that no settlement was probable until the Haji and his followers had been forced to leave the country or had been so discredited as to lose their ascendancy. Bombing activity was therefore concentrated on the localities occupied by the Haji.

13. On the 12th November the Wana Column moved forward to Chagmali, which is close to the entrance of the Shahur Tangi. A few sniping shots were fired at the advanced troops, but no casualties were sustained.

Between the 12th and 14th November permanent piquets were erected guarding the Shahur Tangi, and during the operation not a single shot was fired at the troops. The country in the Shahur Tangi is particularly difficult, and it is an eloquent testimony to the success of our dealings with the majority of the tribe that the Mahsuds not only refrained from taking advantage of such favourable country, but were at pains to assist us.

14. On the 15th November the column advanced to Haidari Kach, the only opposition being desultory sniping by a small number of Wazirs, and Sarwekai was reached without opposition on the 18th.

As soon as our advance through the Shahur Tangi to Haidari Kach had been completed, the friendly Mahsuds committed themselves more definitely to our assistance. The Haji had sought to obtain assistance from them for the Wana Wazirs, proceeding himself to Sarwekai in the hope of securing their help. He not only failed in this, but the friendly Mahsuds sent a warning to the Wazirs that they would not allow them into Mahsud country to oppose us. A lashkar of 500 friendly Mahsuds moved to Sarwekai and

informed the Haji that if he did not go voluntarily he would be turned out by force. The Haji withdrew with all his followers, and the friendly Mahsud lashkar occupied the old fort of Sarwekai and held it for us until our troops arrived.

15. At Sarwekai the Wana Wazirs were given an opportunity of reconsidering their attitude before the column made a further advance. The friendly sections made overtures for peace, and began bringing in instalments of their fine, but the hostile sections refused to come in, being bribed by the Haji with gifts of ammunition and money. By the 15th December the total surrenders had amounted to—

Rupees 24,406 fine.

51 Government rifles, and

67 tribal rifles

As the number of rifles fell far short of our demands, the advance to Wana was ordered to begin on 16th December.

16. On the 11th December the forward concentration at Sarwekai of the force which was to advance to Wana commenced, and between the 12th and 15th December forward permanent piquets were established without opposition to distance of some five and a half miles beyond Sarwekai.

17. Leaving the 23rd Brigade Headquarters and two battalions at Sarwekai, the remainder of the column began the advance to Wana on the 16th December. No opposition was encountered until the long and steep descent of the Shina Pal Lar was commenced. Here some hostile parties, estimated at 150, were established in the broken country leading down to Dargai Oba, but were dispersed without difficulty.

18. On the 17th December all available troops were employed on improving the northern road back towards Sarwekai and in constructing permanent piquets for its protection. The use of the Shina Pal Lar was discontinued.*

During the 18th, parties of the enemy were seen making sangars in the area Nagundi-Granai Maranarai. From the Tarkhike Algad there is a choice of two roads to Wana, one by Granai Maranarai and the other by Kut Narai. The permanent piquets were only established as far as the Tarkhike Algad in order to leave the enemy uncertain by which road the advance was to take place.

19. The advance to Wana was continued on the 19th December. A strong advanced guard was formed under Lieutenant-Colonel B. U. Nicolay, of the 4-3rd Gurkha Rifles, consisting of the following troops:—

1 Pack Battery,

1 Section, Machine Gun Company,

4-3rd Gurkha Rifles and

South Waziristan Militia.

The advanced guard left camp before dawn so as to be in a position to begin its advance across the plain to the east of the Tarkhike Algad at 07-15 hours. It was to seize, as rapidly as possible, the high ground on both sides of the Granai Maranarai. Taking the fullest advantage of the half light, and then of the rising sun behind them, the troops advanced rapidly, forestalling any opposition, and were in possession of Point 3963 and of the low features west of Kam Tarkhike by 08-00 hours. The enemy were taken completely by surprise and had no time to occupy the sangars previously prepared.

There was little further opposition, and by 10-25 hours the advanced guard was in possession of the ridges commanding the junction of the Granai Maranarai and the Samzala Algad roads. The 2nd Battalion, the Norfolk Regiment, now replaced the 4-3rd Gurkha Rifles in the advanced guard and Lieutenant-Colonel W. F. L. Gordon, C.M.G., D.S.O., took over command from Lieutenant-Colonel B. U. Nicolay. The advance to Karab Kot met with no further opposition, and the camping ground was reached at 13-30 hours.

The strength of the enemy on this day was about 700 men and our intelligence reports pointed to his intention to make a stand. Our casualties

* NOTE.—The road used henceforward ran from Dargai Oba north-east to Point 4296, then south-east to join the southern road; thence by the Woragha Tangi to Sarwekai camp.

however, only amounted to four men wounded, a result mainly attributable to the handling of the advanced guard, to the close co-operation between all arms, to the initiative of company and platoon commanders, and to the rapidity of movement and determination of the 4-3rd Gurkha Rifles. The enemy was surprised at the commencement, was given no time to recover from his surprise, but was kept on the move till he gave up all further attempt at opposition.

Aeroplanes were of much assistance in locating parties of the enemy concealed from the troops and of indicating their position by bombing.

20. On the 20th December the road defences backwards from Karab Kot were completed, and on the 21st December permanent piquets were established forward as far as the junction of the Tiarza and Wana Toi rivers. On the 22nd December the column occupied Wana, no opposition being encountered during the above three days.

The redistribution of the troops of the Wana Column after the occupation of Wana is shown in Appendix 4.

21. At the end of December a redistribution of units became necessary in order to reduce the troops in front of Sarwekai to a safe minimum, to husband supplies, and to free transport for work on daily maintenance convoys between Jandola and Wana. This redistribution was completed on the 7th January 1921.

The line of communications was organised in two sections for administration and defence. It was not convenient for the administrative and defence sections to coincide; but this did not occasion any trouble or misunderstanding. No. 1 Administrative Section was from Jandola exclusive to Sarwekai inclusive, and No. 2 Administrative Section extended from Sarwekai exclusive to Wana. No. 1 Line of Communications Defence Section extended from Jandola exclusive to half-way between Dargai Oba and Rogha Kot, the 23rd Brigade, with headquarters at Sarwekai, finding the troops for this section. No. 2 Line of Communications Defence Section extended from the above boundary to Wana. This section was under the 24th Brigade whose headquarters were at Wana.

22. Roving gangs of hostile tribesmen now began to give some trouble along the lines of communications. This was especially the case in No. 1 Section which received considerable attention from gangs of Mahsuds, mainly of the Abdullai and Abdur Rahman Khel sections. In this section there were eleven determined attacks on piquets or piquetting troops during January and February.

23. On March 6th a party of the enemy, estimated at 100, attacked the road protection troops of the 28th Punjabis near Mamrez Sar, one mile east of Sarwekai. Under heavy fire from two directions a party of the enemy reached the advanced guard but were repulsed by a counter-attack. Our casualties numbered seven killed and seven wounded.

In No. 2 Section, which was solely in Wana Wazir territory, the tribesmen chiefly confined themselves to sniping convoys, usually at long range, but on the 14th March a gang of Mahsuds attacked a convoy and its protective troops from concealed positions at the north end of the Rogha Kot plain. We suffered seven casualties and a considerable number of camels and mules were killed and wounded, but the raiders were driven off.

24. The casualties in Wana Column from November 1920 to March 1921, both inclusive, were as follows:—

—		Killed.	Wounded.	Missing.	Died of wounds.	Died of disease.
British officers	...	1	2	1
British other ranks	...	1	2	...	1	2
Indian officers
Indian other ranks	...	34	60	...	11	65
Followers	1	30
Total	...	36	65	...	12	98

Eighty of the enemy were known to have been killed or seriously wounded, but their total casualties could not be ascertained as many of the raiding gangs were outlaws from across the border, and no information as to the losses of such gangs was obtainable.

After the column arrived at Wana, rifles continued to be surrendered slowly. In order to induce the Wazirs to accelerate the rate of surrender of rifles, some destruction was carried out against houses and towers belonging to the hostile sections. This destruction did not, however, have any material effect on the rate of surrender. Most of the inhabitants of the Wana plain had paid up more than their share in the hope of saving their property, and by the middle of January little more was to be expected from them. The balance was due from the hostile sections, and there was no means of bringing pressure to bear on them except by the destruction of such houses and towers as belonged to individuals. The bulk of these sections have no houses, landed property or crops. They are nomads, who wander about Waziristan with their flocks and who find a ready and safe refuge from our punitive measures by crossing the frontier into Afghanistan.

The actual fines paid in and rifles surrendered by the Wana Wazirs up to the 31st March 1921 were—

Rupees 40,831.

Tribal rifles 195.

Government rifles 133.

The hot weather was now approaching and the employment of British troops on this line in summer was undesirable. Orders were therefore issued that the occupation of Wana was to be continued with a reduced force, which was to consist of—

1½ Pack Batteries (2·75" guns).

1 Field Company, Sappers and Miners.

1 Battalion, Pioneers.

6 Battalions, Indian Infantry.

½ Company, Machine Gun Corps.

Detachment, South Waziristan Militia, and attached troops

The following troops were withdrawn from Wana Column by the end of March :—

2nd Battalion, The "Queen's" Royal Regiment.

2nd Battalion, The Norfolk Regiment.

No. 6 Pack Battery (British).

No. 6 Machine Gun Company (less 2 sections).

EVENTS IN OTHER PARTS OF WAZIRISTAN.

25. Whilst operations were taking place against the Wana Wazirs, and with the advent of the cold weather, hostile activity on the Ladha line materially increased.

On the 5th November a small piquet at Ladha was ambushed, six Indian other ranks being killed and one wounded, and the rearguard to a convoy was attacked in that neighbourhood on the 19th.

Sniping and attacks on convoys occurred in the Sorarogha Section and in the neighbourhood of Jandola, by which we suffered 23 casualties and the loss of sixty-six camels driven off or shot down.

26. During December attacks by hostile sections of the Mahsuds on convoys continued to be frequent on the Ladha line. In all thirteen attacks were made on this line of communications causing the loss of fifteen men killed and wounded and forty-six transport animals.

The troops, however, were able to retaliate with the result that little actual loot was secured by the enemy, and they suffered a considerable number of casualties.

In the Tochi two raids occurred during the month.

In one case a number of Powindah camels were seized five miles from Bannu, but the 21st Cavalry, getting news of the capture, were too quick for the raiders, and moving out from Bannu between the hills and the main road succeeded in recovering all the camels and captured two of the raiders.

27. On the 4th January, two companies of 48th Pioneers, together with a company of the 28th Punjabis, acting as covering troops, were surprised near Jandola, when engaged in making a road, and suffered severe casualties, fire being opened on them at short range. The enemy, numbering 120, belonged to recalcitrant sections of the Mahsuds.

The troops behaved gallantly under trying circumstances, and all the wounded were brought back to camp with the assistance of an armoured car of No. 5 Armoured Motor Battery and reinforcements of the 82nd Punjabis sent out from Jandola. Our casualties amounted to two British officers and one Indian officer wounded, ten Indian other ranks killed and thirty-nine Indian other ranks wounded.

28. On 14th January road protection troops from Sorarogha were attacked by a large gang, but were reinforced by the movable column from Sorarogha when the withdrawal to camp was successfully carried out. Our casualties were one British officer wounded, three Indian other ranks killed and ten wounded.

Two days later, the road protection troops were again attacked in the same vicinity by about 50 Abdullai Mahsuds. Our infantry and the neighbouring piquets engaged the enemy and the 27th Pack Battery opened sudden and accurate fire on them. It was later ascertained that the Mahsuds lost nine killed and twelve wounded on this occasion.

In January altogether seventeen attacks occurred on the Ladha line, and one in the Techi.

29. During February sniping of piquets and convoys continued. Eighteen such cases occurring on the Ladha line; none of them were serious, but they resulted in the loss to our troops of eight killed and eight wounded.

30. During March it became obvious that the tribes were anxiously watching to see what the result of the Kabul negotiations would be. The Afghan demand that we should withdraw our troops from Waziristan and Afghan propaganda had a direct effect on the hostile sections both of the Mahsuds and Wazirs.

On the Wana line sniping of convoys began to increase, instigated by the Haji from across the border, and on the Ladha line hostile Mahsud activity continued.

31. On 22nd March a gang of about 100 Abdullai Mahsuds attacked the camel convoy between Manzai and Khirgi. The local road protection troops were outnumbered and were unable to prevent the gang driving off fifty camels.

On the 24th March the road protection troops from Ladha, consisting of three companies of the 4-39th Garhwal Rifles, were heavily attacked near Piazza Raghza.

News of the attack reached Ladha and a reinforcement of the remaining company of the 4-39th Garhwal Rifles with stretchers was sent back and the withdrawal which had been delayed was continued, and the wounded were eventually brought in. The casualties of the 4-39th Garhwal Rifles were heavy and consisted of 16 Garhwali other ranks killed, one British officer, three Garhwali officers and twenty Garhwali other ranks wounded.

32. As a reprisal for this attack, Makin was subjected to bombing from the air on the 28th, 29th and 30th, the bombing machines going out at varying times morning and evening. Four 112-lb. bombs and over a hundred 20-lb. bombs were dropped and 950 rounds of small arms ammunition fired on different targets with good results.

CASUALTIES.

33. The total casualties sustained from 1st November 1920 to 31st March 1921 amounted to—

Killed	160
Died of wounds	28
Wounded	354
Died of disease	188

These were distributed as follows :-

		Killed.	Died of wounds.	Wounded.	Died of disease.
British officers	4	1	14	8
British other ranks	5	1	15	13
Indian officers	1	2	6	...
Indian other ranks	135	23	312	166

CONCLUSION.

34. The occupation of such a country as Waziristan is a severe strain on the troops who have to face arduous and dangerous duties daily. The scorching heat of summer followed by a bitter winter demands a very high standard of endurance from all troops employed in protective duties, whether in permanent piquets or on road protection.

35. Whilst the heaviest work has fallen on the infantry, the co-operation of the 11th Pack Artillery Brigade with them has throughout been of a high order. No. 6 Pack Battery (British) and No. 35 Pack Battery on the Wana Column had also opportunities of working with "A" Company, No. 11 Machine Gun Battalion, which joined the column in December 1920, and these units did much useful combined work.

No. 27 Pack Battery and a section of the 128th Howitzer Battery have rendered valuable assistance to piquetting troops on the Ladha line of communications, covering several difficult withdrawals.

36. There have not been many opportunities for cavalry action, but both the 16th and 21st Cavalry have made the most of the chances given them.

37. A detachment of South Waziristan Militia was employed on the Wana Column. Their local knowledge of the frontier and training were very useful during that time.

38. The 2th Squadron, Royal Air Force, has been closely connected with the operations described above. This squadron was located at Tank from November 1920 to April 1921 and rendered the force great service both in reconnaissance and bombing expeditions.

39. The engineer services during the period under review have been very fully engaged in works of various kinds, and have carried out their duties to my entire satisfaction. Some two hundred miles of road have been maintained for continuous traffic of heavy and light mechanical transport.

One of the main objects of our present occupation of Waziristan is to enable good roads to be driven through the country whereon blockhouses will be built so as to enable us to control and police the country. The construction of the mechanical transport road of the Takki Zam is the first step in the programme. Throughout the cold weather work has proceeded satisfactorily in spite of great difficulties.

Besides the work on roads the Royal Engineer services have provided installations for electric power, water-supply and ice factories throughout the force. Piped water supplies have been provided at Darya Khan, Kafir Bridge, the fort area Dera Ismail Khan, Bannu and Ladha.

On the Wana Column operations the 14th Field Company, R. E., and the 2-61st Pioneers were continually employed during the forward advance in the construction of piquets and blockhouses.

40. The daily work of the signal personnel throughout the various long lines of communication has been continuously difficult and dangerous.

In spite of the constant cutting of wires and wilful damage to air lines, Force Headquarters has never been out of touch with its furthest posts, except for very brief intervals. This is a very high standard to have attained and has meant great devotion to duty throughout the Army Signal Service.

The work of the Army Signals was ably seconded by the Line of Communication Signal Company which, composed of civilian personnel, provided the whole of the semi-permanent telegraph and telephone lines.

The shortage of operators has restricted the use of wireless to some extent, but on occasions when communications otherwise have been interrupted the wireless stations in the area have successfully taken the place of the land lines.

41. The administration of a force such as this with several different lines of communications makes heavy demands on staff and administrative services. The force has been self-supporting as regards fuel, meat and also partially as regards fodder. All other supplies for approximately 65,000 troops and 25,000 animals have to be conveyed from the broad gauge railheads east of the Indus river across that river on steamers and flats to the forward areas. West of the Indus the means of transport are many and varied.

The necessities of a modern army at war are many, but when in addition to this every requirement for a prolonged occupation of a country such as Waziristan has to be sent up the line, the capabilities and resources of the administrative services are heavily taxed.

Only by continuous and sustained effort on the part of all Supply and Transport services were the requirements of the troops met. The Supply and Transport also took over the administration of Field Force canteens and was responsible for running all military dairies in the area. The supply of fresh vegetables and ice to troops up the line was also arranged for by this corps.

42. Waziristan has an unenviable reputation for climate. The extremes of heat and cold combined with the virulent malaria indigenous to the country are conducive to a high sick-rate.

That the sick-rate has not been higher is directly attributable to the care and forethought of the medical authorities. The medical units throughout the force are mobilized ones, yet they have been expanded and developed so that the sick and wounded receive treatment much in advance of that ordinarily procurable in field units.

43. The Ordnance Service has very efficiently fulfilled the heavy demands made upon it. The establishment of a large depôt at Mari Indus was determined on last summer, based on the requirements of a force of 60,000 for four months. This entailed elaborate arrangements for shedding, stacking and shelving material for several hundred tons of stores.

44. With 24,000 transport and other animals in the force, for the most part continuously employed on convoy duty, efficient veterinary treatment is essential.

Veterinary hospitals with adequate provision for sick animals have been established, and it is due to the excellence of their arrangements that rinderpest, which threatened to become an epidemic, was prevented, and the staging camels were maintained in health.

45. The tact, determination and skill with which Major-General T. G. Matheson, C.B., C.M.G., has conducted the operations since October 20th, 1920, deserves special mention. Though previously unacquainted with the frontier, he has carried out his difficult task with marked success and to my entire satisfaction, in the face of adverse conditions and constant anxiety. He is a skilful and resolute commander.

46. I desire here to record my thanks to J. A. O. Fitzpatrick, Esq., O.B.E., C.I.E., Resident in Waziristan, for the able assistance and advice he has given. Major-General T. G. Matheson, C.B., C.M.G., and his predecessor Major-General W. S. Leslie, C.M.G., D.S.O., have both expressed their appreciation of the political assistance afforded them.

47. Major-General W. S. Leslie, C.M.G., D.S.O., commanded Wazir Force from the 25th May 1920 to 19th October 1920, after which he held command of the Wana Column until 20th March 1921. He is a skilful and resolute commander, whose knowledge of frontier warfare under modern conditions is invaluable. It was largely due to his skill that Wana was reached with so few casualties.

48. A list of the names of those whose services have been of particular value will follow.

EDUCATION DEPARTMENT, BENGAL.**NOTIFICATION.****Post Graduate Research Scholarships to be awarded in 1922.**

Two Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, history, archæology, anthropology, etc. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1922, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied, to the Director of Public Instruction, Bengal, and must produce evidence of having passed the M.A. or M.Sc. examination from a college or other institution in Bengal or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering in 1919 or 1920 or 1921. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted on or before the 31st May 1922 in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

[N.B.—This cancels all rules published before 1922.]

MEDICAL COLLEGE OF BENGAL.

RULES FOR THE GUIDANCE OF STUDENTS SEEKING ADMISSION.

1. Two classes of students are admitted for study in the College—

(a) “Regular,” or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University, and the Province of Bihar and Orissa.

(b) “Military Class” (only students of European or Eurasian parentage are admitted to this class). (See separate Prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the—

(a) “Regular Class” is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

				Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	2	0
				<hr/>	
Total			...	84	8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, six candidates by the Inspector-General of Civil Hospitals of Assam and one by the Government of Central Provinces. These candidates must possess the qualifications mentioned in rule 2 (a)

In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the ~~I. Sc. Examination with Physics and Chemistry~~. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) ~~Female students will be admitted to the College~~ provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, *viz.*, Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual athletic club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.

12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment:—

	Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 13 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 13 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships, awarded by the Government of Bengal, are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, Local Bodies, or Dufferin Fund, shall pay the same fees as Regular students.

20. The following are the curricula of the College —

RESOLUTION ON THE REPORTS OF COMMISSIONERS OF DIVISIONS ON THE WORKING OF MUNICIPALITIES DURING 1920-21.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 1ST MAY 1922.

RESOLUTION—No. 2016M.

READ—

The reports of Commissioners of Divisions on the working of municipalities during 1920-21.

1. **Number of municipalities.**—A new municipality was created at Bhola (Bakarganj); the total number of municipalities in Bengal thus became 116. As, however, the new municipality did not begin work during the year the statements appended deal with statistics for 115 municipalities.

2. **Elections.**—The elective system was in force in all except five municipalities. At present under section 14 of the Bengal Municipal Act, Government appoint one-third of the Commissioners of a municipality which has the elective system. In 1919 Government decided that an experiment should be made in certain municipalities, whereby the elected Commissioners, subject to Government control, should be invited to co-opt the remaining one-third of their body. This privilege was granted to the elected Commissioners of Nabadwip, Comilla, Chandpur and Jessore; it was found necessary to revert to the old system in Nabadwip. All except 12 municipalities have the right to elect their own Chairmen. The latter number has been reduced to five since the close of the year.

General elections were held in 16 municipalities. Little interest was shown in the municipal elections of Chandpur and Cox's Bazar, while there was no poll in any ward in Sherpur nor in one ward of Nawabganj.

Litigation in connection with the general election of the Kotrung Municipality held in 1918-19 was continued, and an appeal was preferred before the Subordinate Judge of Hooghly against the decision which the Civil Court had given in favour of the municipality. The Subordinate Judge set aside the election and passed a perpetual injunction on 17th May 1921 restraining the new Municipal Board from transacting any business. The Chairman preferred an appeal to the High Court, which has since set aside the order of the Subordinate Judge. The elections in two wards of the Maniktala Municipality and in one ward of the Basirhat Municipality were set aside by the Civil Court, appeals against which are pending in the High Court.

3. **Meetings.**—One hundred and sixty-one meetings or, on the average, one in every 14 failed for want of a quorum. The failure was most marked in Baduria where 6 out of 14 meetings proved abortive. The Commissioners of the North Barrackpore, Gobordanga and Murshidabad municipalities failed to hold monthly meetings. Eight out of 18 Commissioners of the Barasat Municipality absented themselves from several consecutive meetings while the attendance of the official Commissioners in this and eight other municipalities in the Presidency Division is reported to have been irregular.

4. **Ratepayers and voters.**—The number of ratepayers rose from 319,906 to 322,466 and the population residing within municipal limits (2,631,500) showed an increase of 57,700 according to the last census. The

ratio of ratepayers to the population averaged nearly 16 per cent. in the Presidency as a whole, and varied from 37·5 per cent. in Kumarkhali to 3·3 per cent. in Titagarh, a mill town with a large cooly population. Other towns in which rates are paid by less than one-tenth of the people are the mill municipalities of Garden Reach, Bhatpara, Garulia, Champdani and Bhadreswar as well as Darjeeling and Narayanganj.

5. Assessment and taxation.—The average incidence of taxation per head of population was Rs. 2-11-9 showing a slight falling off, which is due to an increase in population according to the last census. The incidence is highest in the suburban municipality of Cossipore-Chitpur (Rs. 9-7-2). Next come the hill stations of Darjeeling (Rs. 8-8-4) and Kurseong (Rs. 7-0-11). In only two other towns (Howrah and Chittagong) it is above Rs. 5 while it is below Re. 1 in 31 municipalities or nearly one-fourth of the total number, falling in two cases to below 8 annas a head.

A general or partial revision of assessment was made in about half the number of municipalities, the net result being an increase of Rs. 3,17,209 in the municipal demand of the Presidency as a whole. In Cossipore-Chitpur the net increase of revenue amounted to Rs. 22,601, of which more than half was due to the assessment of new jute godowns. Maniktala, Burdwan and Barisal secured each an increase of more than Rs. 10,000 while in Bally an enhancement of the rate of taxation in three out of four wards brought in an additional income of Rs. 17,451. The revision of assessment in Kurseong in subject to the result of no less than 200 appeals, but the Chairman expects an increase of Rs. 6,000 in municipal revenue. A water-rate and tax on arable land were imposed for the first time in Nator and Sherpur, respectively. In the former town the tax on persons which had been in force in 5 out of 12 wards was replaced by a rate on holdings.

6. Collections.—There was a satisfactory increase of Rs. 2½ lakhs in collections, the percentage on the current demand rising from 90 to nearly 96. In 13 municipalities the collections were equal to or in excess of the current demand and in 17 they were over 99 per cent. On the other hand, the ratio was under 85 per cent. in nine municipalities, falling as low as 66 per cent. in Bally. Garulia and Nalchiti alone collected the full demand without any remission. The amount of remissions was smaller than in previous year and represented 2·5 per cent. on the current demand. The small municipality of Debhatta remitted more than quarter of its current demand while five others, viz. Kharar, Bansberia, Bally, Halisahar and Taki, remitted more than 10 per cent. Except in the case of Bansberia where remissions were granted on account of vacant holdings and exemptions allowed on account of altered circumstances of ratepayers, no explanation has been given for the high percentage of remission.

The returns show that there is a growing tendency to allow municipal revenue falling in arrears. In the Presidency as a whole, the balances outstanding at the close of the year amounted to Rs. 7,06,896 against 6 lakhs in the previous year and Rs. 5,40,076 in the year 1918-19. The Minister for Local Self-Government regrets to observe that the accumulation of such heavy arrears reflects credit neither upon the Municipal Commissioners nor upon their executive. Howrah shows the largest balance outstanding (viz., Rs. 2,11,780) and although an explanation has been given, the real reason for this heavy accumulation seems to be the weakness of the municipal executive in enforcing punctual payment by resorting, where necessary, to coercive measures which were adopted only in five cases. Other municipalities which had unduly large outstandings were Cossipore-Chitpur, Mynensingh, Bally, Dacca, Hooghly-Chinsura, Burdwan and Chittagong. In the case of the first named municipality the balance of Rs. 65,000 was mainly due to the non-payment of taxes due from the Eastern Bengal Railway, but in other cases no satisfactory explanation has been furnished. By a mistaken leniency towards defaulters, the Commissioners frequently impose a heavy handicap on their administration; the Minister trusts that prompt and vigorous measures will be taken to collect arrears. On the other hand, four

municipalities had no outstanding balances while in ten other cases they were less than Rs. 100.

7. Income and expenditure.—The total receipts including opening balance fell from Rs. 98,29,204 to Rs. 97,43,540; the decrease under the heads "Opening balance" and "Grants and contributions" counterbalancing the increase in receipts from taxation. Expenditure also fell from Rs. 81,33,115 to Rs. 74,26,217, mostly under the head "Public health and convenience."

8. Closing balances.—The closing balances rose from Rs. 17 lakhs to Rs. 23 lakhs; a large portion of this represents unspent grants and loans received from Government for improvement schemes, such as water-supply, drainage and sewerage, and includes the credit balance of special funds (e.g., water, lighting, hackney-carriage and dispensary). About one-third of the total number of municipalities closed the year with a balance exceeding one quarter of the total expenditure. On the other hand, a number of municipalities failed to keep adequate working balances and in 13 cases they were insufficient to meet outstanding liabilities. Debhatta with an ordinary expenditure of Rs. 3,000 had a balance of Rs. 51 only while Satkhira with an expenditure of more than Rs. 9,000 closed the year with the exiguous sum of Rs. 43 in hand and with a liability of Rs. 492. In the case of Mymensingh, Muktagacha, Tollygunge, Barasat and Baduria the outstanding liabilities exceeded largely the closing balances. The worst offender was Muktagacha which had outstanding liabilities of Rs. 4563, or nearly half of its current demand against, an actual balance of Rs. 574.

9. Education.—The amount spent on education, including the Government grant of Rs. 1,06,056, was Rs. 2,83,955 or about $3\frac{1}{2}$ per cent. of the municipal income as against 4·2 per cent. in the preceding year. The expenditure on primary education fell from Rs. 1,34,221 to Rs. 1,28,713, but it is satisfactory to note that only 13 municipalities, as against 22 in the previous year, failed to spend at least 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the percentage was over 5 per cent. in 53 municipalities and over 10 per cent. in 5.

The Rangpur Municipality resolved to levy an education cess under the Bengal Primary Education Act of 1519, and the Municipal Commissioners of Darjeeling decided to establish two primary schools, viz., one for boys and the other for girls, each to accommodate 300 students, and received a Government grant for the construction of the boys' school during the year. A model building, which will be a credit to the town, is now under construction. The Chandpur Municipality approved of the scheme drawn up by Mr. E. E. Biss regarding voluntary primary education.

10. Water-supply.—The waterworks at Mymensingh and Noakhali were completed during the year. Additions were made to those at Dacca and Burdwan. Considerable progress was made with the Midnapore waterworks. A scheme for the improvement of the Darjeeling waterworks was sanctioned by Government and is in progress. Schemes for the extension of the water-supply at Serampore and for the installation of a piped supply in one ward of Naihati were sanctioned. A modest scheme was also sanctioned for Patuakhali; a Government grant of Rs. 10,000 was made to meet the cost of sinking an experimental bore hole in connection with the scheme. A loan of Rs. 1,00,000 was granted by Government to the Krishnagar Municipality for the execution of its waterworks scheme. Projects for water-supply at Rishra-Konnagar, Faridpur, Ranaghat, Nabadwip and Bogra were prepared, but were not taken in hand on account of financial difficulties. Water-supply projects for certain other municipalities are under preparation.

The resources of many of the municipalities in Bengal are too limited to permit of their undertaking costly water-supply schemes. It is, however, believed that satisfactory schemes of a cheaper type, based on artesian borings or tube-wells, can be devised for the smaller towns, and Government

propose to purchase a boring plant for this purpose. In some municipalities the water-supply is obtained from tanks; where this is the case, it is clear that the Commissioners should be most vigilant and active in their measures to reserve the tanks.

11. **Drainage.**—The drainage scheme for Budge-Budge was in progress. Administrative approval was given to the drainage project for Krishnagar and a portion of Rangpur. A detailed scheme for improving the drainage of Basirhat was under the consideration of the Sanitary Board. The Municipal Commissioners of Hooghly-Chinsura, Serampore and Suri could not take up their drainage schemes for want of funds. Minor works were carried out in Bally, Bankura, Khulna, Chittagong, Comilla, Darjeeling and Dinajpur.

12. **Conservancy.**—The conservancy charges were about Rs. 5½ lakhs in excess of the receipts from latrine fees which were levied in all but 16 municipalities. Certain municipalities in the Presidency Division derived income from the sale of nightsoil and the levy of rents for the surplus land of trenching-grounds.

The sewerage scheme for Kurseong was completed and that for Dacca was in progress. Sewerage schemes for which the local mills contributed liberally were prepared for Naihati and a portion of Kamarhati. It is hoped that Government sanction may shortly be accorded to the important Titagarh scheme. A scheme for Bhatpara, which is also of the first importance, is under preparation.

13. **Public health.**—It is a good sign that for the past few years almost all municipalities have been taking measures to improve sanitation by filling up or clearing insanitary tanks and ditches and by removing jungle.

Effective steps were taken to prevent the spread of cholera and small-pox which broke out in several municipalities in the Dacca and Rajshahi Divisions. Faridpur offered a reward for information of the first case of these diseases so that the Sanitary Inspector might immediately visit the locality, trace out the source of infection and adopt necessary measures for disinfection.

Influenza was responsible for no less than 262 deaths in Darjeeling. Vigorous steps were taken to cope with the epidemic, and the special medical staff had considerable success in their efforts to induce infected persons to proceed to the hospital, so as to secure a certain amount of segregation and more efficient treatment. Influenza tabloids were distributed gratis by Dinajpur, Azimganj and Jessore. Many municipalities distributed quinine among the poor people.

Vaccination depôts were opened in different parts of Naihati and several suburban municipalities. Additional vaccination staff, male and female, was employed in Dacca and Narayanganj. House-to-house vaccination, free of charge, was carried out in Dacca to popularise vaccination.

In the Burdwan Division all municipalities with one exception employed the requisite number of Sanitary officers. Rajpur and Kamarhati failed to appoint Sanitary Inspectors while the post of Health Officer remained vacant in Krishnagar, Chittagong and Barisal owing to the lack of qualified officers.

By-laws were framed by a number of municipalities for the eradication of water-hyacinth, and notices under section 200 of the Bengal Municipal Act were issued by some to remove this pest from tanks and waterways.

14. **Public works.**—The percentage of the outlay on public works to the total expenditure varied in the smaller towns from 2·1 in Birnagar to 56·9 in Taki and in larger municipalities from 5·4 in Kurseong to 30·4 in the South Suburban Municipality. The new town hall and municipal office in Darjeeling was completed.

15. **Loans.**—Loans amounting to Rs. 3½ lakhs were granted to five municipalities. Altogether 43 municipalities were in debt to Government; their total liabilities at the end of the year amounted to more than Rs. 40 lakhs.

16. Audits and embezzlements.—The accounts of almost all municipalities except Berhampore and Chittagong were audited during the year. No case of embezzlement was brought to light except a few cases of temporary misappropriation. The collection accounts of the Burdwan Municipality were in a chaotic state, and a Sub-Deputy Collector was deputed to remedy the defects disclosed.

17. General Remarks.—Burdwan Division.—Howrah.—The total ordinary income of the municipality fell from Rs. 13,58,278 to Rs. 13,54,719 while the total expenditure declined from Rs. 12,94,332 to Rs. 11,85,664. The decrease in expenditure occurred mainly under the head "Public health and convenience" owing to the restriction of repairs to roads imposed by the dearth of metal. The current demand on account of municipal taxes rose from Rs. 12,16,985 to Rs. 13,25,459. The latrine fund had been working at a deficit since 1917-18, and the Municipal Commissioners resolved to revise the scale of latrine fees with effect from the 1st April 1921. The scheme for the improvement of waterworks could not be taken up for want of funds, and the Municipal Commissioners have resolved to approach Government for a loan for the purpose. Analyses of the filtered water show the supply to be on the whole good and pure. Conservancy was as before carried on for the most part under the supervision of ten ward committees. Difficulties were experienced in the recruitment of sweepers and other menial staff. The mothers and sweepers went on strike and their wages had to be increased, entailing an additional burden of about Rs. 50,000 on the latrine fund. Owing to want of funds the proposal for the removal of Nandibagan trenching-ground has not taken any practical shape. A sum of Rs. 45,764 was spent on the maintenance of stone and brick roads against Rs. 81,636 in the previous year. Out of 68.69 miles of metalled roads, 5.13 miles were metalled during the year against 20.33 miles in the previous year; the programme of road repairs was held up owing to the difficulty of obtaining metal. Health conditions in the municipal area, though a little better than in the preceding year, cannot be considered satisfactory. The birth-rate was 20.20 per mille against 21.78 while the death-rate was 43.08 per mille against 57.86 of the preceding year.

18. The administration of the Burdwan Municipality continued to be vested in a body of nominated Municipal Commissioners, who, however, are said to have shown as much vigour and zeal as though they were responsible to a vigilant and informed electorate. Conditions are not favourable to efficient administration. The town is hemmed in between the Damodar embankment and the embankment of the East Indian Railway, dotted over with innumerable tanks in various stages of preservation, and is therefore naturally a hot-bed of malaria. Practically no systematic attempt has been made in the past to tackle this disease, the Commissioners having concentrated their efforts on securing a good supply of filtered water and thus obtaining immunity from water-borne diseases. Nevertheless much has been accomplished, and the foundations of further progress have been laid. In particular, the Commissioners have brought about a substantial reduction of a large volume of arrear demands.

The towns of Asansol and Raniganj suffer in some respects from their situation in the coalfields and the proximity of large industrial works. The year under report witnessed much labour unrest, with the result that the menial staff of these municipalities showed a hankering for less work and more pay. The consequence was an increased burden on the municipal finance while the conservancy service was very indifferent. There was an unfortunate cleavage between the railway representatives on the Asansol municipal board and the Indian municipal commissioners, the latter opposing the compromise whereby on the extension of the elective system the railway settlement is to be made a self-governing ward with an income of its own while the railway officials passed several resolutions in favour of lavish expenditure which, had they been brought into effect, would have made the municipality bankrupt.

In Chandrakona, faction spoils to a large extent any possibility of good work; the Chairman and Vice-Chairman have been frequent absentees from the meetings. As regards the Midnapore Municipality Mr. Cook observes :—

“The executive has exercised their power on more than one occasion in a manner detrimental to the interest of the ratepayers. In one case, it was proposed to lease out to a private individual a public roadway leading to an old established bazar, thereby cutting off access to this bazar of a large part of the townfolk living to the west of the roadway.”

19. Presidency Division.—The Magistrate of the 24-Parganas criticizes the municipal administration of several towns in his district, such as Tollygunge, Panihati, Jainagar, South Dum Dum, Barasat, Baduria, Gobordanga, Halisahar, etc.; but, on the other hand, the Cossipore-Chitpur, Baranagar, Garden Reach, Titagarh, Bhatpara, Naihati and Baruipur municipalities are said to do good work and to be steadily improving local conditions. Steady progress is being made with schemes for water-supply and sewerage in Naihati, for sewerage in Titagarh and for flood-flush drainage in Budge Budge.

Mr. Prentice points out that the provision of an improved water supply for Cossipore-Chitpur is of great importance not only from the sanitary point of view but also from the point of view of public safety. A scheme for an unfiltered water-supply for purposes of fire-control has been suggested; but, as he points out, the Commissioners are naturally reluctant to commit themselves to the dual system while there is any chance of obtaining a sufficient supply of filtered water for all purposes, *e.g.*, under a satisfactory riparian water-supply scheme. “The position in Budge Budge is more difficult, as it is a long way south of Calcutta, and the supply of water from a central scheme might be expensive. However, the Commissioners have decided to ask the Chief Engineer, Public Health Department, Bengal, to frame a scheme for their consideration, and his proposals are awaited. Unfortunately the deep tube-wells that have been so successful in mills at Titagarh and elsewhere have not proved such a success in Garden Reach and Budge Budge; otherwise there might have been a fairly simple solution of the difficulty.

“The most important problems of municipal drainage in the district of the 24-Parganas are bound up with the fortunes of the Grand Trunk Canal scheme which for years past has held up schemes for the improvement of the drainage of Maniktala, Cossipur-Chitpore and part of South Dum Dum as well as of those of the riparian municipalities whose drainage it was proposed to lead into the Bagjolla khal.

“There has been considerable improvement in the market of Panihati and in one or two markets in Baranagar. But there are still complaints about the failure of the owners of the Garulia market to comply with the requisitions of the Municipal Commissioners. The condition of the market in Joynagar and Gobordanga is a good example of how the public welfare is subordinated to private interests.”

“More vigorous action is desirable in the improvement of insanitary *bustis*. Practically no schemes under section 245 of the Act are under preparation in any of the municipalities in this district, and yet some of the *bustis* to be seen in some of the best municipalities are insanitary in the extreme.

“There is great need for the more effective personal supervision of the municipal staff, indoor and outdoor, by the local executives of many of the municipalities in this district.”

The Khulna Municipality in general is doing its best for the health of the town, but is handicapped by want of funds.

Among other minor municipalities in the Presidency Division the most striking features of the year were the prevalence of strong party faction in Azimganj, so that opposition was not always honest, the practical bankruptcy

of Sathkhira after the inauguration of the water-supply, the reluctance in Jessore to issue warrants of distress, and the temporary failure of the Berhampore water-supply owing to shortage of coal.

The Commissioner of the Division observes :—

“ Bad administration is too often at fault owing to the failure of the executive to make full use of their powers of coercion under the Act so as to remove common defects without cost to municipal funds. Though the main difficulty is want of money, the result for the money spent is in default of proper supervision not always the best. Without the growth of a strong public opinion supporting sanitary measures and vigorous control there can be no marked improvement under present conditions.

Nor do I see signs of any new spirit looking for a leader to carry broader views into effect. Even if a committee does not dare to face the capital outlay. I find no bias in favour of private enterprise in matters of public concern. And yet in the matter of lighting or water-supply, private companies might be expected to come forward if they be given proper encouragement.”

20. Dacca Division.—The Commissioner observes that it is difficult to find in most of the municipalities persons able and willing and with sufficient leisure to perform the work of Chairman and Vice-Chairman. The average work turned out is, however, in his opinion, fair. Mr. Lindsay, the Magistrate of Dacca, writes as follows as to the working of the municipalities in his district :—

“ The municipalities have shared in the difficulties universally caused by high prices, but they have carried on their services without loss of efficiency. In both cases, however, they handicap themselves by bad collection of rates in spite of the ample powers given them by law. Commissioners themselves are often among the defaulters and are only too ready to intercede for defaulters among their constituents. Against these the municipal staff does not dare to take drastic action with the result that almost three-fourths of the collections are realised in the last quarter, and even when collections have been good, as in this year, 7 per cent. of the current demand is in arrear compared with $\frac{1}{2}$ per cent. in England. Municipal work could be carried much more easily if only collections were made promptly and fearlessly. This can only be done by making the Commissioners personally responsible for these collections as is the case with most local authorities in England.”

21. Chittagong Division.—The administration of Chittagong has not much improved. The roads generally are badly kept up, but considering the high cost of brick material and the expense of running the waterworks nothing else could be expected. Besides there are said to be so many parties among the Municipal Commissioners that it is a difficult task to carry any measure through at a meeting. Considerable improvement was effected in the financial position of the Comilla Municipality. The Commissioners of Chandpur deserve credit for adopting the scheme of voluntary primary education, but they have lately shown a deplorable tendency to interest themselves in party politics to the detriment of their administrative efficiency.

22. Rajshahi Division.—The Magistrate of Rajshahi observes :—

“ Rampur-Boalia Municipality has been the subject of unfavourable comment annually for some time, and I see no indications of improvement. Their finances are in a deplorable state, and I can only attribute this to an entire lack of any desire for improvement. I am convinced that a little energy and personal attention would set the municipality on its legs, but these appear to be far to seek. The auditor's reports for some time past have drawn attention to persistent irregularities which the Commissioners apparently do not trouble to correct. Conditions at Nator are better.”

There is said to be a lack of any real civic spirit in the three municipalities in Malda.

The collections were very unsatisfactory both in the Pabna and the Serajganj municipalities. There is also no proper increase in taxation. Neither of the municipalities has taken steps to introduce the holding rate. Until this is done there is little hope of improving the municipal finances. Roads are said to be neglected and proper steps are not taken to improve the drains.

The Deputy Commissioner of Darjeeling writes as follows :—

“The municipality of Kurseong is much indebted to Mr. Addis, the Chairman, for the ungrudging way in which he has spent his time and energies in carrying on its business. It is uphill work. Kurseong has a piped water-supply, and its sewerage scheme is nearing completion. Its lighting is poor, its market (a private property) is in a congested locality, its arrangements for the slaughter of cattle and for the sale of meat are most defective, its surface drainage owing to deficient flushing is bad and the majority of its houses have grave sanitary defects. The income of the municipality is insufficient to finance an adequate loans programme, and there seems little prospect of the rateable value of the town increasing unless the town can be popularised by the development of vacant lands (private property) for building sites. Mr. Addis has proposed, with the small margin of income over expenditure which the revised assessment is yielding, to raise a loan for the construction of a modern meat market and slaughter-house while the possibility of embarking on an electric lighting scheme is under consideration.”

The Commissioners of Darjeeling are reported to have shown considerable interest in the discharge of their duties and to have assisted in the smooth working of the municipality. Commissioners as a body are said to be the progressive and anxious to improve the amenities of their town, which is fortunate in the public spirit and mutual co-operation of its municipal representatives. The Commissioner of the Division observes that no less than three of the municipalities in the division had absentee Chairmen during the year under report ; it seems to be a serious mistake to elect as Chairman a person who is likely to spend most of the year outside the limits of his municipality.

23. The names of the following Chairmen and Vice-Chairmen have been specially brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them, and the Government in the Ministry of Local Self-Government desire to express their appreciation of the public spirit shown by them :—

**RESOLUTION ON THE REPORTS OF COMMISSIONERS OF
DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN
BENGAL DURING THE YEAR 1920-21.**

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVT. DEPARTMENT.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 1ST MAY 1922.

RESOLUTION No. 2015 L.S.-G.

READ—

The reports of Commissioners of Divisions on the working of District Boards in Bengal during the year 1920-21.

District Boards.—A further stage was reached in the withdrawal of official internal control over District Boards. In the preceding two years all but five District Boards secured the right of electing their own Chairmen; in the year under report this privilege was extended to the remaining five. In 20 boards the elective element was raised from one-half to two-thirds while the boards were also enlarged. The Darjeeling Road Cess Committee is giving place to a District Board on a popular basis, with three Local Boards, which are likely to possess a large measure of financial independence.

2. **Local Boards.**—The membership of Local Boards was increased, while three new boards were established. These bodies maintain village roads and are responsible for village sanitation, where these duties have not been transferred to Union Boards. In the Burdwan district they were also in charge of ferries and primary education; in Nadia they are also responsible for the maintenance of masonry wells. There is a tendency to transfer the functions of the Local Board to the new Union Boards, and in Burdwan, we are told, that as a result of this transfer frequent meetings on the part of the Sadar Local Board proved unnecessary. The place of the Local Board, if it is not to be eliminated in the framework of the local self-government system, will be a matter of cardinal importance when the amendment of the Local Self-Government Act is undertaken.

3. **Village Self-Government.**—A forward policy in the creation of Union Boards was accepted by Government, and by the close of the year nearly 1,600 Union Boards had been formed. Few will doubt that this movement—if it succeeds—is fraught with important issues in the political life of Bengal. There have been many failures, but some of these village committees, especially in the Dacca district, have shown vitality and energy, which are a hopeful augury of the growth of public spirit and civic responsibility. Some District Boards have taken a keen interest in the welfare of these new bodies; in Burdwan district over half a lakh was contributed towards their expenses from the district fund.

The District Boards, however, find their own resources quite inadequate for their expanding functions, and the success of the Union Boards must depend largely on their willingness to utilize their power of taxation. It is contended that the villagers cannot afford to pay taxes for the improvement of their unions, and it must be admitted that experience has not yet justified the

optimism, which held that the villager was shrewd enough to pay, if he saw that he was obtaining good value for his money in the shape of improved communications and sanitation.

The number of Union Committees declined in proportion as they gave place to Union Boards, but there were still 309 Union Committees working at the end of the year. In the Presidency Division the Rajibpore Union Committee, 24-Parganas, is singled out for special praise; its record of works shows the benefits which a public-spirited Chairman can obtain for the group of villages in which he labours. In reviewing Village Self-Government as a whole the Minister (Local Self-Government Department) feels constrained to travel beyond the annals of 1920-21 in referring to the deplorable set back, which the tender growth of village committees has of late received at the hands of the non-co-operator. In Midnapore district there was an organized campaign against the new Union Boards, and as Government had no desire to force these institutions on the villagers against their will orders have recently issued for the withdrawal of the Union Board system in that district. The old chaukidari panchayats have replaced them, and the clock has unfortunately been set back.

4. **Financial results.**—The receipts from all sources amounted to Rs. 122·7 lakhs against Rs. 129 lakhs in the preceding year, the decrease being mainly due to smaller receipts under deposits and advances and miscellaneous heads. There was also a corresponding decrease in the total disbursements which fell from Rs. 130·7 lakhs to Rs. 122·7 lakhs. The excess of current income over current expenditure amounting in the previous year to Rs. 38,000 was reduced to a deficit of about Rs. 4·8 lakhs. The closing balance at the end of the year amounted to Rs. 31·8 lakhs.

5. **Taxation.**—The incidence of taxation averaged 2 annas 6 pies a head for the whole Presidency, and varied in different districts from 1 anna 7 pies to 6 annas 8 pies.

6. **Education.**—The expenditure on education rose from Rs. 26·7 lakhs to Rs. 28·5 lakhs, and excluding the contributions received from Government and other sources and the fees and miscellaneous receipts, the sum contributed by District Boards from their own funds rose from Rs. 9½ lakhs to Rs. 11·3 lakhs. The Minister for Local Self-Government observes with satisfaction that the increase was mainly due to the greater attention paid by most District Boards to the expansion of primary education in rural areas. The number of upper and lower primary schools maintained and aided by District Boards rose from 37,871 to 39,078, of which 29,936 were boys' schools and 9,142 girls' schools; those actually maintained by the Boards increased from 2,909 to 3,010. Schemes for the development of primary education on the lines suggested by Mr. Biss were sanctioned for three unions in the district of Khulna, and a grant of Rs. 8,000 for capital expenditure was made by Government towards the execution of the schemes. Female education made a satisfactory stride during the year; the number of schools increased by 600 and the number of pupils by 9,000. A sub-committee of seven lady members was formed in Khulna to advise the District Board in matters relating to the education of girls. Technical and industrial education continued to receive special attention. Two new weaving schools were started with the aid of District Boards, viz., one at Midnapore and the other at Tantipara in Birbhum. The District Board of Khulna also decided to open a district weaving school as an experimental measure.

7. **Medical relief and public health.**—The expenditure under these heads aggregated Rs. 11·7 lakhs against Rs. 10·5 lakhs of the preceding year. In nearly all districts definite programmes have been laid down for the gradual extension of dispensaries, and 22 new dispensaries were established during the year, making a total of 304. Two hundred and twenty-six dispensaries were in receipt of grants-in-aid from District Boards amounting to Rs. 2·77 lakhs. No dispensaries were maintained by any of the Boards in the Chittagong Division, which however, made grants-in-aid amounting to

Rs. 1.13 lakhs to 55 dispensaries. Eleven temporary dispensaries were maintained by the Burdwan District Board and three by the Birbhum District Board to combat epidemics of malaria and cholera. The opinion is gaining ground that District Boards should cut adrift from the long-accepted policy of constructing dispensary buildings of the old expensive type; the means for affording relief to the masses can be quickly multiplied if it is once admitted that buildings of the cheap type on which private dwellings in rural areas are constructed may serve as efficient centres for a medical agency. The Midnapore District Board's scheme for providing a network of dispensaries on these lines within the next ten years commends itself to the Minister and steps are being taken to modify the rules under which buildings must at present be designed after a costly standard type.

In Khulna 20 anti-malarial leagues were established under the general control and guidance of the Health Officer. The members are enrolled as unpaid voluntary workers in the anti-mosquito campaign and the distribution of quinine. The subsidization of medical practitioners—initiated in Jessore—was approved in Midnapore, Howrah, Khulna and Dacca; in the Midnapore district four doctors, who each receive from the Board a subsidy of Rs. 35 per mensem *plus* Rs. 5 as house-rent, have now begun work. In the 24-Parganas subsidies of Rs. 30 per mensem were offered, but no doctors could be obtained; a similar report comes from Nadia, where subsidies of Rs. 35 per mensem were offered. In Dacca five doctors were obtained on subsidies of Rs. 35 per mensem; they are required to visit schools within a radius of 5 miles of their centres in order to give simple courses of instruction on personal hygiene and sanitation. In Jessore the Board has been able to withdraw its subsidies from established practitioners, but owing to the reduction of the rates of subsidies no suitable doctors were available for the new centres. The establishment of an *Ayurvedic* dispensary by this District Board attracted great interest. It is reported to have made some mark as a medical institution suitable for the treatment of chronic diseases.

The usual petty sanitary works, such as the removal of jungle, clearing roadside and village drains, filling up insanitary ditches, etc., were carried on through the agency of Local Boards, Union Boards and Union Committees.

In India the deplorable waste of life from preventable diseases is a commonplace, and in the Howrah Sadar subdivision a demonstration of anti-cholera measures was carried out at Government cost. The experiment is thus described by the Commissioner:—

“Six sanitary inspectors were placed in six thanas with a sub-assistant surgeon as their supervisor, while the entire operation was in charge of the Health Officer. The inspectors were provided with bleaching powder, hycol, cholera literature and cholera posters. They visited police-stations once a day and as soon as they came to know of any outbreak of cholera they proceeded at once to the spot and disinfected rooms, buildings, soiled cloths, etc., while they also gave the occupiers of the house and the neighbours necessary instructions and sterilised tanks with bleaching powder where necessary. They distributed cholera literature among the people and published posters at prominent places dealing with the causes and prevention of cholera. The inspectors tried to get information from all available sources and principally through the Presidents of Union Boards, the idea being to check the disease in the very beginning.”

It is reported that since the commencement of the campaign the death-rate from cholera has been appreciably reduced. Measures of this kind cannot, however, be at once improvised when epidemics occur; it is desirable that District Health Officers should prepare the way for such campaigns well in advance by constant anti-cholera propaganda and by dealing promptly with small sporadic epidemics. If the efficacy of preventive

measures is thus demonstrated throughout the year, it will be easier for a special staff to work on a larger scale, when more severe epidemics occur. Temporary itinerant doctors such as were employed in several parts of the Rajshahi Division, if their activities are properly organized and trained, form a useful nucleus for a special staff of this kind. The Minister is glad to find that District Health Officers have to some extent realized the paramount importance of simple public health propaganda at the present time. In Birbhum pamphlets containing instructions for the prevention and treatment of cholera, small-pox and influenza were distributed through the agency of the Presidents of Union Boards, and in Bankura doctors were deputed to inspect and treat pilgrim traffic from Puri.

During the year the Vaccination Act was extended to all the areas administered by the District Boards in the Burdwan Division, and the system of free vaccination was in force in the districts of Burdwan, Birbhum and Howrah. The Health Officer, Howrah, held several magic lantern demonstrations to explain the benefits of vaccination to the masses. The Mymensingh District Board had a staff of 56 vaccinators including 4 women operators to attend to the *pardanishin*. Considerable attention was paid to vaccination in the Patuakhali subdivision, the number of persons vaccinated including those vaccinated in the preceding year was about 32 per cent. of the population.

As regards works of sanitation, it is noteworthy that the Bakarganj District Board spent no less than Rs. 52,248 in the excavation and re-excavation of khals; this work is said to have had a marked effect on the sanitation of the areas concerned.

General.—On the whole, there seems ground for believing that local bodies have a keen appreciation of their obligations in the matter of public health, but the inadequacy of their funds is a constant handicap. The Minister is glad to observe a general tendency amongst District Boards to concentrate their activities on the following lines :—

- (1) an extension of medical relief by the creation of new dispensaries and the subsidizing of rural doctors who require aid until they can build up a practice ;
- (2) the organization of preventive measures, combined with treatment, in the case of epidemics ;
- (3) the improvement of vaccination work ; and
- (4) public health propaganda, in which Health Officers should take a leading part.

He is satisfied that on these lines much valuable work can be done, and has now under consideration the question of the extent to which Government can assist the Boards in these matters.

8. **Veterinary.**—The charges under this head amounted to Rs. 1,36,000 against Rs. 1,12,000 of the preceding year. The veterinary assistants continued to do useful work by visiting villages affected by cattle disease and treating the cattle in villages and at hospitals. There were outbreaks of cattle diseases in the districts of Bankura, Midnapore, Bakarganj and Jessore. In Bakarganj there was a severe outbreak of rinderpest which carried off thousands of cattle and crippled the cultivators. A veterinary inspector has recently been placed in charge of this district and of the Khulna and Jessore districts by the Veterinary Department. In Nadia and Khulna veterinary committees were formed by veterinary assistants with a view to secure co-operation in their work.

9. **Civil works.**—The total expenditure under this head, which includes the sums spent on water-supply and drainage, rose from Rs. 60.3 lakhs to Rs. 61.6 lakhs. The outlay on buildings and tools and plant increased by 2.5 lakhs, but that on communications and water-supply decreased by Rs. 1.6 lakhs and 1.2 lakhs, respectively. The decrease was in some cases due to

scarcity of labour, but its main cause was the shortage of railway wagons which rendered it impossible to obtain either metal for the roads or coal for burning bricks. As was to be expected under these conditions there were large lapses amounting in Birbhum and 24-Parganas to nearly one-fourth of the total allotment for civil works. The District Boards of Howrah and Khulna allowed over 19 per cent. of the allotment to lapse and four other Boards, viz., Burdwan, Midnapore, Jessore and Noakhali had lapse of over 15 per cent. of the allotments. Taking the figures for the province as a whole the proportion of lapses rose from 11 to 12 per cent.

10. **Communications.**—The growth of water-hyacinth has increased to an alarming extent. By-laws were framed by several District Boards to secure the removal of this pest; some District Boards served notices on persons requiring them to remove the weed from their tanks or ponds, but the notices proved ineffective. A resolution was therefore passed by the District Board Conference of 1921 to the effect that Government should undertake legislation at once for the eradication of this nuisance in consultation with the Government of Assam. It is understood that the Assam Government is not at present prepared to take measures chargeable to provincial revenues; in Bengal a Committee has been appointed to advise Government on this matter.

Particular attention was paid by the District Board of Hooghly to the prevention of encroachment on roads. About 114 encroachment cases were reported by subordinate officers; in each case the encroachment was removed.

11. **Water-supply.**—The total expenditure amounted to about Rs. 5·8 lakhs, of which Rs. 5 lakhs were spent on original works. Taking the Presidency as a whole, the percentage of the Public Works Cess receipts spent on water-supply fell from 20 to 16·7 per cent., the decrease being most marked in Nadia, 24-Parganas, Mymensingh, Bakarganj, Noakhali and Bogra. On the other hand, there was a marked improvement in the districts of Bankura, Tippera, Hooghly, Murshidabad and Chittagong: in the two districts first named the percentage was more than 24 per cent. against 9·4 and 8·4, respectively, in the previous year. In Midnapore, where also the percentage showed a slight increase, the District Board allowed a large allotment to lapse mainly through the dilatory execution of works and delay in determining the rates at which labour should be paid. Tanks started in the district in 1919-20 remained unfinished even at the end of the year under review.

As in the preceding year, the whole of the amount spent on water-supply was met from current revenue, and the reports do not show that any District Board has considered seriously the suggestion made last year that capital works of this kind should be financed from loans.

12. **Drainage.**—The expenditure under this head amounted to Rs. 1·4 lakhs, of which Rs. 1·1 lakhs represented the expenditure incurred on account of the Jaboona project in Nadia and the Arool bil scheme in Jessore. The Nowi-Sunthi and the Jaboona projects were taken up by the District Board of the 24-Parganas. All these projects are under execution by the Public Works Department of Government. In other districts drainage works were confined chiefly to clearing roadside drains, re-excavating and deepening khals and the construction of bridges and culverts.

13. **Relief works.**—The expenditure fell from Rs. 1,65,000 to Rs. 7,000, of which Rs. 3,000 was spent by the Khulna District Board and the balance by the Noakhali District Board. No other District Boards had to undertake relief measures, a fact which indicates the absence of famine conditions in the province during the year. There were heavy floods in Midnapore, particularly in the Tamruk subdivision, which rendered many people homeless and caused acute distress. The District Board co-operated in the measures undertaken to relieve the distress.

14. Closing balance.—The actual closing balances decreased from Rs. 23·27 lakhs to Rs. 17·67 lakhs. Although the Burdwan District Board succeeded in reducing its balance by Rs. 1·75 lakhs, it closed the year with a balance of Rs. 2·64 lakhs for nearly half of which the Asansol Local Board was responsible. This is attributed to the difficulty of getting materials and also to the abnormal rise in the wages of labour. The accumulation of Rs. 2·62 lakhs in the case of the 24-Parganas is chiefly accounted for by the large unspent balances of the Government grant of Rs. 2 lakhs for the Nowi-Sunthi drainage scheme and of Rs. 29,041 for the improvement of the Jaboona river. The Rajshahi District Board reduced its balance by Rs. 50,000 to Rs. 17,766 and the balance in Chittagong decreased from Rs. 84,894 to the unduly low figure of Rs. 569. The Tippera, Faridpur and Dacca District Boards closed the year with debit balances of Rs. 16,221, Rs. 9,172 and Rs. 5,888, respectively, indicating overdrawals on the District Funds. In Faridpur and Dacca this was due to an overestimate of the cess receipts and might have been avoided had the District Boards revised their budgets a few months before the close of the year. The heavy fall in Tippera from the credit balance of Rs. 1,08,000 at the end of the previous year has not been explained. On the other hand, the balances rose to more than a lakh in Bakarganj and Khulna. In the former the rise was due to an unexpected increase in the cess receipts for the expenditure of which there was no budget provision, while in the latter district it was due partly to the receipt of a special Government grant of Rs. 15,000 for educational purpose and partly to heavy lapses under "Civil Works" and "Medical." In Midnapore and Howrah the balances were also heavy amounting in each case to nearly Rs. 1·5 lakhs. No explanation has been given in the case of Howrah, but in Midnapore there were heavy savings under "Civil Works."

15. General remarks.—While the heavy balances indicate defective budgetting or the dilatory execution of work, the universal cry of District Boards is the inadequacy of their revenues for their expanding functions. Labour and materials are more expensive, while the creation of Union Boards has placed a new charge on the District Fund. Important schemes have been drawn up for the expansion of primary education, extension of water supply, adoption of a comprehensive public health policy, improvement of communication, etc., but the financial difficulty has to many Boards appeared insuperable. The adoption of a loan policy will in some cases be possible, but an expansion of revenue is also necessary, and it is difficult to devise taxation, which will sufficiently augment the resources of the District Boards without proving oppressive to the tax-payers. This question was discussed at the Conference of the representatives of District Boards held in December 1919. The Conference was opposed to any increase in the cess, but approved a proposal to levy a tax on carts, carriages and horses in rural areas. This proposal has recently been revised, and enquiries are being made as to the approximate revenue such a tax might yield and the method of its assessment and collection.

Apart from finance, the work of the District Boards, many of which were under non-official Chairmen, was on the whole satisfactory; most of the non-official Chairmen showed great interest in their important duties, and there is no doubt that the District Boards have considerable vitality and are beginning to open up a field of useful public service to many of the ablest men in the mufassal. The Commissioner of the Presidency Division observes:—

"The general impression left on my mind after inspecting the District Board offices is that, with the passing of the official Chairmen who worked in one groove, there has been an improvement in the variety of projects undertaken for the good of the people. The work of the Board is more attractive to members, and each non-official Chairman is conscientiously doing his best with the time at his command in the matter of touring."

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, i.e., by rail, river, canal, road, and sea, of the Calcutta block* in certain selected articles during the eleven months, April, 1921, to February, 1922, as compared with the corresponding period of 1920-21 and 1919-20. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta* by rail, river, canal, road, and sea (coastwise) during the eleven months, April, 1921, to February, 1922, amounted to 13,862,000 maunds, as against 11,563,000 maunds in the corresponding period of the preceding year,—an increase of 2,299,000 maunds or 20 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 26 per cent in the imports of coal and coke (93,672,000 maunds as against 125,888,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 7 per cent, the total value amounting to Rs. 10,03 lakhs as against Rs. 10,74 lakhs in 1920-21. The quantity of indigo imported during the eleven months, April, 1921, to February, 1922, decreased from 11,671 maunds last year to 8,458 maunds. The imports of raw jute amounted to 3,857,000 bales as against 5,065,000 bales,—a decrease of 1,208,000 bales or 24 per cent. The importations of gunny bags also showed a decrease of 106 million bags (260 million bags against 366 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) increased by 413,000 maunds, or 7 per cent, from 5,604,000 maunds to 6,017,000 maunds, but those of sugar declined by 264,000 maunds, or 34 per cent, from 780,000 maunds to 516,000 maunds. The imports of tea increased from 2,094,000 maunds to 2,307,000 maunds, an increase of 213,000 maunds or 10 per cent.

Exports.—The value of the exports of cotton piecegoods, foreign, from Calcutta* by all routes during the eleven months, April, 1921, to February, 1922, fell by 29 per cent from Rs. 22,93 lakhs to Rs. 16,40 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 1,213 million to 966 million bags, but the shipments of gunny bags to other Indian ports increased from 52 to 71 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) also rose from 4,931,000 maunds to 5,030,000 maunds, an increase of 99,000 maunds or 2 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

FORESTS.

NOTIFICATION.

No. 5014 For.—The 5th May 1922.—The following regulations for the appointment, in India, of probationers for the Imperial Forest Service in 1922 are published for general information.

M. C. MCALPIN,

Secretary to the Government of Bengal.

Regulations for the appointment, in India, of probationers for the Imperial Forest Service in 1922.

Applications are invited from natives* of India and Burma for probationerships for the Imperial Forest Service. Candidates of European or Anglo-Indian descent must be unmarried and, if appointed as probationers, must remain unmarried until completion of the prescribed course of training and their return to India.

2. Applicants, who should not be more than 23, nor less than 19, years of age on 30th June 1922, must possess an *Honours*, or a first class, degree in Science of a University incorporated by law in British India.

3. Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Testimonials or other recommendations should not be attached to the applications.

4. Applications from officers already in the public service, whether as probationers or on a permanent establishment, will not be entertained.

5. Applications from residents in Coorg, Ajmer, Baluchistan, North-West Frontier Province and Delhi should be addressed to the Secretary to the Government of India, Department of Revenue and Agriculture, through the Chief Commissioners of those Administrations, and from residents in Indian States through the Political Officer or Agent in time to reach the Government of India *not later than the 15th June 1922*. Applications from residents in other territories should be addressed to the Revenue Secretary of the local Government concerned in time to reach him *not later than the 15th June 1922*. The applications must be in the form attached to these regulations. Copies of the regulations and of the forms of application may be obtained from the Secretary to the Government of India, Revenue and Agriculture Department, the Revenue Secretaries to the Government of Madras, Bombay, Bengal, the United Provinces, the Punjab, Burma, Bihar and Orissa, Assam, Central Provinces, the Chief Commissioner of Coorg, Ajmer, Delhi; the Chief Commissioner and Agent to the Governor-General in the North-West Frontier Province; the Agent to the Governor-General and Chief Commissioner in Baluchistan and Political Officers of Indian States.

6. Applications must be accompanied by a preliminary medical certificate of fitness for service in the Forest Department, signed by a Presidency Surgeon or the Civil Surgeon of the district or agency in which the applicant resides. This certificate is intended to prevent applications from candidates who are obviously physically unsuited for the Forest Service and will not exempt candidates from appearance before the final Medical Board.

7. Candidates who from their applications and from any further enquiries that may be considered necessary appear to the Government of India or to the local Government concerned to be *prima facie* suitable will be summoned to appear before a Medical Board to undergo a strict medical examination in which particular stress will be laid on good vision and hearing. If passed as fit for the work of the Forest Department, they will then be interviewed by a Selection Board appointed by the Government of India or by the local Government concerned as the case may be.

8. Candidates summoned by the Government of India to appear for the medical examination and interview referred to in paragraph 7 who come from a greater distance than 200 miles for either purpose will be paid half the cost of a 2nd class fare [by rail or (and) by steamer] for the journeys to and from the place where the medical examination and interview are held.

* "Native of India" means any person born and domiciled within the dominions of His Majesty in India or within the territory of the Indian Princes tributary to, or in alliance with, His Majesty, of parents habitually resident in India and not established there for temporary purposes only.

Candidates summoned by local Governments for similar purposes may be paid travelling allowance under such conditions and at such rates as the local Government concerned may specify.

No allowance for board and lodging will be made in connection with the journeys mentioned above and candidates must make their own arrangements in this respect.

9. Those finally selected as a result of the interview prescribed in paragraph 7 will be appointed as probationers for the Indian Forest Service; they will be required to leave for England early in September and, subject to their undergoing satisfactorily, as described below, a course in Forestry and allied subjects in England, will be appointed finally as Assistant Conservators of Forests. Candidates selected for training will be provided with second class passages to England, *but the cost of travelling to the port of embarkation will not be paid.*

10. *Period of probation.*—Before appointment to the Imperial Forest Service a probationer will be required—

- (1) to have undergone and qualified in, to an extent to be prescribed by His Majesty's Secretary of State for India, the course of Forestry at such University as the Secretary of State may prescribe;
- (2) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies;
- (3) to have passed an examination in forest engineering and, if required in certain other special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law and Indian Working Plans;
- (4) to have undergone a final competitive examination in Forestry;
- (5) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation is, in ordinary cases, two years. The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

11. *Charges.*—Probationers will be required to defray all expenses of lodging, board, tuition and excursions to forest centres in the United Kingdom while at the University and on practical instruction.

12. *Allowances.**—The Secretary of State for India in Council makes payment to each probationer at the rate of £350* per annum, not exceeding a total of £700.

These payments are ordinarily made on the following dates:—

First year—

on the 15th October	£
" " " December	75
" " " March	100
" " 1st July	75
				100
				350

Second year—

on the 15th December	100
" " " March	75
" " 1st July	100
" " 15th October	75
				350

The cases of probationers whose probation does not extend over the full period of two years will be specially considered.

For tours made on the Continent, under the instructions of the Director of Forest Studies, subsistence and travelling allowance will be paid by the Secretary of State for India in Council at such rates as he may from time to time fix. The fees of the local forest officials at the centres visited will also be paid by the Secretary of State.

* This allowance is unlikely to be sufficient to meet all the needs of a probationer, who should be in a position to provide himself with at least another £150 per annum from other sources.

The grant of allowances is subject to the following conditions :—

- (a) that the progress of the probationer in his studies is satisfactory ;
- (b) that the probationer gives security* to refund the payments in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 15 or failing to join the Indian Forest Service at the end of the period of probation ;
- (c) that the probationer undertakes to refund in proportions fixed under the terms of his agreement, the payments together with the cost of his first class passage to India, in the event of his leaving the Service during the first five years from the date of his appointment.

13. *Conduct.*—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

14. *Appointment and seniority.*—Probationers who comply with the requirements of paragraph 10 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, are appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. No probationers will be confirmed as a member of the Imperial Forest Service who fails to profit by the course of training, or who appears, in the light of the experience acquired as to his capacity and qualifications during the probationary period, to be unsuited for the work of a forest officer.

The position of the Assistant Conservators in the Provincial Forest Lists is determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies. Officers promoted from the Provincial to the Imperial Service will take rank according to their pay in the latter service. Probationers recruited under these regulations must consequently be prepared to find their names placed below those of officers promoted from the Provincial Service.

Probationers are allowed at the end of the period of probation to state their preference in respect to the province to which they desire to be allotted ; but the distribution is made to the several provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council and no guarantee can be given that probationers will, on appointment, be posted to their own provinces. Indians will not, however, be required to serve in Burma and Burmans will not be required to serve in India.

Officers are at all times liable to be transferred from one province to another at the pleasure of the Government of India.

15. *Articles of agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment ; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. *Passage to India.*—Each probationer on appointment to the Indian Forest Service is provided with a free first-class passage to India.

17. *Salary.*—The scale of pay and allowances in force for officers of Indian domicile is given in Appendix II to these regulations.

18. *Promotion and pension.*—Promotion and pension are governed by the regulations laid down by the Government of India, and applicable to forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service will be found in Appendix II, and a summary of information regarding pensions is contained in Appendix III.

* Probationers will be required to give security to the local Government or Political Officer, through whom they submitted their applications. If this condition is not satisfied, they will not be permitted to leave for England.

APPENDICES.

APPENDIX I.

Final Examination.

1. With a view to the allocation of the annual Currie Scholarship for Indian Forest Students (value about £35), and to facilitate the allotment of probationers to the several provinces in accordance with paragraph 14 of the regulations as to appointments in the Indian Forest Service, probationers who have completed their prescribed course of training are required to undergo a competitive final examination in Forestry.

2. A list of the probationers in order of merit is prepared by adding together (a) the marks obtained at the final examination, and (b) the marks obtained during the course of practical training in Forestry under the control of the Director of Indian Forest Studies. The maximum of marks obtainable under (a) is the same as under (b).

3. The final examination consists of an oral examination and three or more papers, as follows :—

RESOLUTION.

In paragraph 3 of Finance Department Resolution No. 1559-E.A., dated the 16th August 1921, the Government of India have issued general orders on the question of compensation to officers of the Services on account of low rates of exchange. As several representations have been received as to the position, in regard to these orders, of those services and appointments from which exchange compensation allowance has not been expressly withdrawn, it is necessary to amplify the orders to remove all doubts on the question of this allowance.

2. The position of the various services may briefly be explained as follows:—

- (1) In pursuance of the general policy of Government that exchange compensation allowance should cease to be admissible on the occasion of a revision of pay of a service or appointment previously entitled to the concession, the allowance had already been withdrawn prior to the Report of the Public Services Commission from the Indian Forest Service, the Indian Police (except those officers who were recruited before 1906) and from the great majority of officers in the Indian Political Department, the Public Works Department and certain other services.
- (2) At the introduction of revised scales of pay as a result of the Report of the Public Services Commission, exchange compensation allowance was specifically withdrawn from other services, *e.g.*, the Indian Civil Service and the Civil Veterinary Department. The allowance was also definitely held to be inadmissible to the Indian Medical Service at the last revision of the scale of pay.
- (3) In certain other services, such as the Indian Educational Service, the Ecclesiastical Department and the Indian Audit Department, no definite pronouncement was made at the time of introduction of the revised rates of pay, as at that time the question did not immediately arise owing to the high rates of exchange then prevailing.

3. The absence of definite orders in cases falling under the third category has given rise to doubts as to the intention of Government. The whole question has therefore been considered, and the Government of India, with the approval of the Secretary of State, now desire to reaffirm the principle adopted in the past and adhered to in revisions of recent date that exchange compensation allowance should cease to be admissible to services and appointments the pay of which has recently been revised.

From the date of introduction of revised rates of pay, the allowance is therefore declared to be inadmissible to—

- (i) The Indian Educational Service ;
- (ii) Officers of the Indian Audit Department and the Ecclesiastical Department previously entitled to exchange compensation allowance ;
- (iii) Residents in the Indian Political Department (though the pay of 1st Class Residents has remained unchanged, the pay of the service, as a whole, has been revised) ;
- (iv) Officers of the Indian Police Service, except those appointed prior to 1906 who retain the right to the allowance ;
- (v) Officers in all other services and special appointments in respect of whom no specific declaration of inadmissibility has been made at the time of revision of pay.

4. The terms of paragraph 3 of the Finance Department Resolution No. 1559-E.A. of the 16th August 1921 will in such cases operate to safeguard officers against actual loss of emoluments.

5. The Judges of High Courts were entitled to exchange compensation allowance under the Statutory Rules set forth in Article 543 of the Civil Service Regulations, under which every Judge is allowed to draw, in addition to his salary, any exchange compensation allowance which may be sanctioned for public servants generally. As the allowance has now been generally withdrawn, the statutory rules will be amended and Judges will not be entitled to any allowance calculated on pay earned after the 1st April 1922. Any person, however, who as Chief Justice or Judge drew exchange compensation allowance before this withdrawal of the allowance from public servants generally will be protected from actual reduction of emoluments, owing to such withdrawal, by the grant of personal pay as provided in paragraph 3 of Resolution No. 1559-E.A., dated the 16th August 1921, when, and for so long as, he holds the same or a similar post on the same pay.

6. Officers serving on contract in which exchange compensation allowance forms part of the terms of the contract may retain the right to the allowance during the period of their existing engagement.

7. It has been brought to the notice of Government that in consequence of the omission to announce the withdrawal of exchange compensation allowance, audit officers have in some cases passed the allowance which has thus been drawn by officers not entitled to it under the present orders. The Government of India are, however, pleased to declare that such amount shall not be recovered, but such allowance shall cease to be drawn on pay earned after the 1st April 1922.

8. Officers who, on the 1st April 1922, are on leave and in receipt of leave salary which includes exchange compensation allowance, should continue, during leave, to draw exchange compensation allowance, instead of personal allowance in lieu thereof.

ORDERED that a copy be forwarded to the several Departments of the Government of India ; to all local Governments and Administrations ; to the Financial Adviser, Military Finance ; to the Auditor General ; to the Controller of the Currency ; to the Mint and Assay Masters, Calcutta and Bombay.

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the—

(a) “Regular Class” is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

				Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	2	0
Total			...	84	8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, six candidates by the Inspector-General of Civil Hospitals of Assam and one by the Government of Central Provinces. These candidates must possess the qualifications mentioned in rule 2 (a).

In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, *viz.*, Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual athletic club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

				Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 13 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 13 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships, awarded by the Government of Bengal, are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. The courses of lectures commence in July and continue until the following April, except the course of Accountancy and Auditing, which extends over two years.

(a) **Book-keeping (Elementary).**—Students having a satisfactory knowledge of English and Arithmetic are admitted. Text-book—Arthur Fieldhouse's Complete Book-keeping, up to 100 exercises including Partnership accounts. The fee for the full session, July to April, is Rs. 24, payable in eight monthly instalments of Rs. 3 each. Classes are held three times a week from 6 to 7 P.M.

(b) **Book-keeping (Advanced).**—Students who have passed the Elementary Book-keeping Examination, or who can give satisfactory proof of their knowledge of Elementary Book-keeping up to the requisite standard, are admitted. Text-book—Complete Book-keeping, by Arthur Fieldhouse. The fee for the full session, July to April, is Rs. 32, payable in eight monthly instalments of Rs. 4 each. Classes are held twice a week from 6 to 7 P.M.

(c) **Shorthand (Theory).**—Pitman's Shorthand is the system taught. Students having a sufficient knowledge of English are admitted at the beginning of the session in July. Students are also admitted in December, provided they have already a sufficient knowledge of Shorthand to enable them to appreciate the lectures in the session, December to April.

The minimum speed required to pass the examination is 80 words per minute. The class is held daily from 5 P.M.

The fee for the session, July to November, is Rs. 12, which may be paid in four monthly instalments of Rs. 3 each. The fee for the session, December to April, is Rs. 16, which may be paid in four monthly instalments of Rs. 4 each.

Students having a minimum speed of 80 words per minute are admitted in December, and the class practice is from 80 to 140 words per minute.

In the examination the tests are at four grades of speed, 80, 100, 120, 140 words per minute, and at higher speeds if candidates can write more rapidly. Classes are held daily from 6 P.M. Fees are the same as for (c).

(e) **Typewriting.**—Beginners are admitted in July. Students having a minimum speed of 20 words per minute are admitted in December. For each of the speed tests there is a corresponding accuracy test in tabulating. Classes are held at 5, 6 and 7 P.M. Fees are the same as for (c).

Combination of the above subjects and reduction of fee.—If a student simultaneously takes up two or three of the subjects (a) to (e), a reduction of Re. 1 per instalment of each of the fees payable by him will be granted : for example, if a student is a member of both the Shorthand and the Elementary Book-keeping classes, he will have to pay instalments of Rs. 2 for each subject instead of Rs. 3 for the session, July to December.

(f), (g), (h), (i) and (j).—Classes are formed in these subjects if a sufficient number of candidates apply for admission. The fee for each subject is Rs. 3 for each series of ten lectures.

(k) **Accountancy and Auditing.**—There are two courses of year each for ordinary students, or one year for those who are already practising as Auditors, to prepare candidates for the Government examination of Diploma in Accountancy, which qualifies them to obtain the Government license to practise as Auditors. Students of this class have to attend Book-keeping and Mercantile Law classes, for which no extra fee has to be paid. The fee is Rs. 144, payable in advance in four half-yearly instalments of Rs. 36 each in the case of ordinary students and Rs. 72 in two half-yearly instalments of Rs. 36 each in the case of those who are practising as Auditors and hold a provisional license granted by Government.

2. **Examinations.**—The examination in subjects (a) to (j) is held at the end of April, at the end of the year's course, under the control of the Government Commercial Institute Board, and successful candidates receive certificates signed by the Director of Public Instruction, Bengal, and countersigned by the Secretary to the Bengal Chamber of Commerce. The examination fee for each subject is Rs. 5.

3. **Attendance.**—Strict regularity and punctuality of attendance are observed. Students must attend 75 per cent. of the lectures in order to appear at the examination. Classes are not held in the evening on Saturday.

4. **Standard of Admission.**—Candidates who have attended the lectures of the day course are eligible for admission. Others will be admitted, provided they appear qualified for the class or classes they seek to join.

5. **Prizes.**—Prizes of Rs. 50 each are offered by the Bengal Chamber of Commerce to the best candidates from the evening classes in subjects (b), (d), (f), (g), (h), (i) and (j). Three medals are offered by the Remington Typewriter Co. to the best three students of either the day or evening classes in the Typewriting examination.

**RESOLUTION ON THE BUDGET ESTIMATES OF INCOME AND
EXPENDITURE OF THE HOWRAH BRIDGE FOR THE YEAR
1922-23.**

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

DARJEELING, THE 1ST MAY 1922.

RESOLUTION—No. 1T-Marine.

READ—

The budget estimates of Income and Expenditure of the Howrah Bridge for the year 1922-23.

Receipts.—The receipts for the year are estimated to be Rs. 3,90,138 as against the revised estimate of last year of Rs. 3,90,110. The principal source of revenue is from receipts from the East Indian Railway traffic, estimated at Rs. 2,75,000, the amount shown in the revised estimate of 1921-22.

Expenditure.—The estimate of total expenditure for the year is Rs. 4,39,119, which is Rs. 6,120 less than the revised estimate of the preceding year. Increases in expenditure are chiefly under the heads "Establishment," "Stores" and "Interest on Overdraft." The increase of "Expenditure" over "Income" for the year, viz., Rs. 48,981, raises the estimated debt of the Bridge to the Port Commissioners to Rs. 5,33,525 on the 31st March 1923, as compared with Rs. 4,31,207 on the 31st March 1922. The Governor in Council notes with concern this increase in the debt of the Bridge Fund to the Port Commissioners. It is not advisable at this stage to revise the scale of contributions, but the liquidation of this debt will be a matter for consideration in connection with the proposals for financing the new bridge.

2. The Governor in Council approves the budget estimate under section 21 of the Howrah Bridge Act, 1871.

By order of the Governor in Council,

H. E. SPRY,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1921-22.

(NOTE.—On an average of the five years ending 1919-20, the area under linseed in Bengal has represented some 5·3 per cent., and that under rape and mustard 19·0 per cent. of the total area under these crops in British India.)

Character of the Season.—As reported in the preceding two forecasts, the rainfall at the beginning was adequate for the preparatory operations throughout the Presidency except in parts of West Bengal. Since then, with the exception of scanty rain in January and at the beginning of February, which was too late, the weather has been exceptionally dry, and the continued drought adversely affected the crops more specially in the western districts. As a whole, therefore, the season may be regarded as only fair for these crops this year.

Area Sown.—The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 1,059,300 acres this year as against 1,35,800 acres of last year.

Outturn.—According to the estimates of the District Officers, the provincial outturn of the different oilseed crops works out at 73 per cent. of the normal against 77 per cent. last year.

Taking $5\frac{1}{4}$ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and $4\frac{1}{4}$ maunds for other oilseeds, the total yield for the province is estimated at 167,600 tons this year against 172,500 tons last year.

Director of Agriculture, Bengal.

The decrease in area was due to want of rain at sowing time especially in the Sadar subdivision. The weather was not favourable for want of rain which retarded the growth of the crops and consequently the outturn was much below the normal.

At sowing time, there was good moisture in the soil in most places but subsequent absence of rain retarded the growth of the crops and caused some damage. Hence the outturn was much below the normal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 3rd May 1922.

Summary.—Light rainfall was nearly general throughout the Presidency. It has facilitated the agricultural operations and has been beneficial to standing crops generally. More rain, however, is needed especially in parts of Burdwan and Rajshahi Divisions. Harvesting of spring crops is over. The average price of common rice for the province has risen by about 11 per cent. as compared with that of the previous week.

OFFICE OF THE ACCOUNTANCY DIPLOMA BOARD, 65, APOLLO STREET, BOMBAY, *the 27th April 1922.*

INSTRUCTIONS TO CANDIDATES FOR

THE GOVERNMENT DIPLOMA IN ACCOUNTANCY OF THE SYDENHAM COLLEGE OF COMMERCE AND ECONOMICS, BOMBAY.

Regulation No. 4.—

(A) *Examinations equivalent to Matriculation.*—Examinations recognized by an Indian University as equivalent to the Matriculation or Entrance examination of that University will be recognized as such by the Accountancy Diploma Board under this Regulation. If the candidate has studied for one or more terms in a College affiliated to an Indian University, a certificate to that effect signed by the Principal of that College will be accepted as proof of the candidate's eligibility for the Diploma course. The previous orders of the Board must be secured by the candidate in other cases.

(B) *Attendance certificate.*—The attendance ought to be in an Institution specially recognized by the Accountancy Diploma Board for purposes of this Diploma. The candidate is required to have attended three-fourths of the number of days on which lectures were delivered in each of the two academic years. Should his attendance in either of the two years have fallen short of three-fourths, that particular year will not be counted as a portion of the two year's attendance prescribed by this Regulation. If he has attended the prescribed number of lectures in each of two academic years, but has not been certified as fit to present himself for the examination, he will not be required to attend lectures for a third year, but will merely be required to satisfy the Principal about his fitness to appear for the examination, and to submit his application through the Principal. He may undergo practical training in accounts during such third year, and such training will be counted as a portion of the three years' training prescribed by Regulation 12 (b).

(C) The fee of Rs. 50 must reach the Secretary to the Accountancy Diploma Board, 65 Apollo Street, Fort, Bombay, on or before 31st January. *Fees paid in will on no account be refunded.*

Regulation No. 5.—

Under this regulation, an under-graduate may, in lieu of attending lectures for two years as prescribed by Regulation No. 4, receive practical training in accounts for two years. He must apply to the Board for the recognition of such practical training and secure the orders of the Board before applying for the examination; the number and date of such order must be quoted in the candidate's application for the examination.

Regulations 6 and 13—

When the holder of a *temporary* auditor's certificate applies for the examination under Regulation 6 or for the Diploma under Regulation 13, the period for which the auditor's certificate was granted must not have expired. An application from such a candidate submitted after the expiry of the period for which the certificate was granted will not be accepted by the Board.

Regulation 12.—

Practical training.—Every candidate entering on the course of practical training prescribed by this Regulation must submit to the Accountancy Diploma Board an application for the recognition of such practical training in the prescribed form, copies of which can be had at the office of the Board, Apollo Street, Bombay; such applications must be submitted within sixty days of the commencement of the practical training.

The practical training must be under a Chartered or an Incorporated Accountant or a certified auditor, working as a Public Accountant. It is immaterial whether the candidate has paid a premium for such training or is in receipt of a salary. It is essential that he should be a full-time apprentice and should not be engaged in any other work during the usual office hours.

Chartered and Incorporated Accountants may take and train apprentices without the previous permission of the Government. The holder of a *permanent* (whether restricted or unrestricted) auditor's certificate granted by a local Government, may take and train apprentices, provided he is specially empowered in that behalf by the local Government of the Province where he is practising. The mere fact that he holds a permanent auditor's certificate will not empower him to take apprentices.

The apprenticeship may be served partly under one and partly under another practising accountant, provided it is in each case reported to and recognised by the Accountancy Diploma Board.

Regulation No. 12 (b).—

The practical training in accounts prescribed by this regulation may be (1) partly before and partly after, or (2) wholly before, or (3) wholly after the candidate passes the Diploma examination of this Board. The course prescribed for an under-graduate covers five years, viz., two years as a student of a recognized Institution, *plus* three years apprenticeship. The practical training in accounts, if any, received by an under-graduate during his two years' attendance of a recognized Institution will, therefore, not be reckoned as a portion of the three years' apprenticeship prescribed by this regulation.

Regulation 12 (c).—

At least two out of the three years' apprenticeship prescribed for graduates must be served after they become graduates.

Number of Apprentices.—No practising Accountant will be authorized to take and train *more than two apprentices at a time*. But a Chartered or an Incorporated Accountant, in public practice, may, in special cases, be permitted by the Accountancy Diploma Board to take and NOT more than *four apprentices at a time*.

Auditor's Certificate.—No permanent unrestricted Auditor's certificate will be granted by any local Government or Administration to a person who does not hold the Government Diploma in Accountancy of the Sydenham College of Commerce and Economics, Bombay. Holders of the Diploma have to apply for a permanent unrestricted Auditor's certificate to the local Government of the Province where they intend to set up practice.

By order of the Accountancy Diploma Board,

K. S. AIYAR, B.A., L.T., F.S.A.A.,

Secretary.

MEDICAL COLLEGE OF BENGAL.

RULES FOR THE GUIDANCE OF STUDENTS SEEKING ADMISSION.

1. Two classes of students are admitted for study in the College—

(a) “Regular,” or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University, and the Province of Bihar and Orissa.

(b) “Military Class” (only students of European or Eurasian parentage are admitted to this class). (See separate Prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the—

(a) “Regular Class” is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

			Rs.	A.
Admission fee	20	0
Fees for Summer term	62	8
Athletic Club fee	2	0
Total	84	8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, six candidates by the Inspector-General of Civil Hospitals of Assam and one by the Government of Central Provinces. These candidates must possess the qualifications mentioned in rule 2 (a).

In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, *viz.*, Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual athletic club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.

12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment:—

			Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 13 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 13 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships, awarded by the Government of Bengal, are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. The courses of lectures commence in July and continue until the following April, except the course of Accountancy and Auditing, which extends over two years.

(a) **Book-keeping (Elementary).**—Students having a satisfactory knowledge of English and Arithmetic are admitted. Text-book—Arthur Fieldhouse's Complete Book-keeping, up to 100 exercises including Partnership accounts. The fee for the full session, July to April, is Rs. 24, payable in eight monthly instalments of Rs. 3 each. Classes are held three times a week from 6 to 7 P.M.

(b) **Book-keeping (Advanced).**—Students who have passed the Elementary Book-keeping Examination, or who can give satisfactory proof of their knowledge of Elementary Book-keeping up to the requisite standard, are admitted. Text-book—Complete Book-keeping, by Arthur Fieldhouse. The fee for the full session, July to April, is Rs. 32, payable in eight monthly instalments of Rs. 4 each. Classes are held twice a week from 6 to 7 P.M.

(c) **Shorthand (Theory).**—Pitman's Shorthand is the system taught. Students having a sufficient knowledge of English are admitted at the beginning of the session in July. Students are also admitted in December, provided they have already a sufficient knowledge of Shorthand to enable them to appreciate the lectures in the session, December to April.

The minimum speed required to pass the examination is 80 words per minute. The class is held daily from 5 P.M.

The fee for the session, July to November, is Rs. 12, which may be paid in four monthly instalments of Rs. 3 each. The fee for the session, December to April, is Rs. 16, which may be paid in four monthly instalments of Rs. 4 each.

Students having a minimum speed of 80 words per minute are admitted in December, and the class practice is from 80 to 140 words per minute.

In the examination the tests are at four grades of speed, 80, 100, 120, 140 words per minute, and at higher speeds if candidates can write more rapidly. Classes are held daily from 6 P.M. Fees are the same as for (c).

For each of the speed tests there is a corresponding accuracy test in tabulating. Classes are held at 5, 6 and 7 P.M. Fees are the same as for (c).

Combination of the above subjects and reduction of fee.—If a student simultaneously takes up two or three of the subjects (a) to (e), a reduction of Re. 1 per instalment of each of the fees payable by him will be granted: for example, if a student is a member of both the Shorthand and the Elementary Book-keeping classes, he will have to pay instalments of Rs. 2 for each subject instead of Rs. 3 for the session, July to December.

(f), (g), (h), (i) and (j).—Classes are formed in these subjects if a sufficient number of candidates apply for admission. The fee for each subject is Rs. 3 for each series of ten lectures.

(k) **Accountancy and Auditing.**—There are two courses of year each for ordinary students, or one year for those who are already practising as Auditors, to prepare candidates for the Government examination of Diploma in Accountancy, which qualifies them to obtain the Government license to practise as Auditors. Students of this class have to attend Book-keeping and Mercantile Law classes, for which no extra fee has to be paid. The fee is Rs. 144, payable in advance in four half-yearly instalments of Rs. 36 each in the case of ordinary students and Rs. 72 in two half-yearly instalments of Rs. 36 each in the case of those who are practising as Auditors and hold a provisional license granted by Government.

2. **Examinations.**—The examination in subjects (a) to (j) is held at the end of April, at the end of the year's course, under the control of the Government Commercial Institute Board, and successful candidates receive certificates signed by the Director of Public Instruction, Bengal, and countersigned by the Secretary to the Bengal Chamber of Commerce. The examination fee for each subject is Rs. 5.

3. **Attendance.**—Strict regularity and punctuality of attendance are observed. Students must attend 75 per cent. of the lectures in order to appear at the examination. Classes are not held in the evening on Saturday.

4. **Standard of Admission.**—Candidates who have attended the lectures of the day course are eligible for admission. Others will be admitted, provided they appear qualified for the class or classes they seek to join.

5. **Prizes.**—Prizes of Rs. 50 each are offered by the Bengal Chamber of Commerce to the best candidates from the evening classes in subjects (b), (d), (f), (g), (h), (i) and (j). Three medals are offered by the Remington Typewriter Co. to the best three students of either the day or evening classes in the Typewriting examination.
